Level-1

Q1 Study the following information carefully and answer the questions accordingly.

Seven people K, J, I, H, G, F and E. All of them have their birthdays in different months namely January, March, April, May, June, July and August. No two persons share the same birthday month. K's birthday is in January. There are the same number of person having their birthday before and after I. Only one person's birthday is there between H and I. J's birthday is in the month having 31 days but not in August. There are two person's birthday between J and E. G's birthday is before F's birthday. J's birthday is not before I.

Four among the five are same in a certain way thus form a group. Who among the following is odd one out?

- (A) K (B) H
(C) G (D) F
(E) I

Q2 Study the following information carefully and answer the questions accordingly.

Seven people K, J, I, H, G, F and E. All of them have their birthdays in different months namely January, March, April, May, June, July and August. No two persons share the same birthday month. K's birthday is in January. There are the same number of person having their birthday before and after I. Only one person's birthday is there between H and I. J's birthday is in the month having 31 days but not in August. There are two person's birthday between J and E. G's birthday is before F's birthday. J's birthday is not before I.

How many persons have their birthday before J?

- (A) One (B) Two

- (C) Three (D) Four
(E) More than four

Q3 Study the following information carefully and answer the questions accordingly.

Seven people K, J, I, H, G, F and E. All of them have their birthdays in different months namely January, March, April, May, June, July and August. No two persons share the same birthday month. K's birthday is in January. There are the same number of person having their birthday before and after I. Only one person's birthday is there between H and I. J's birthday is in the month having 31 days but not in August. There are two person's birthday between J and E. G's birthday is before F's birthday. J's birthday is not before I.

In which month does H have his birthday?

- (A) March (B) April
(C) May (D) June

Q4 Study the following information carefully and answer the questions accordingly.

Seven people K, J, I, H, G, F and E. All of them have their birthdays in different months namely January, March, April, May, June, July and August. No two persons share the same birthday month. K's birthday is in January. There are the same number of person having their birthday before and after I. Only one person's birthday is there between H and I. J's birthday is in the month having 31 days but not in August. There are two person's birthday between J and E. G's birthday is before F's birthday. J's birthday is not before I.

Who is having his birthday at the last?

- (A) F (B) E
(C) I (D) G
(E) None of these

Q5 Study the following information carefully and answer the questions accordingly.

Seven people K, J, I, H, G, F and E. All of them have their birthdays in different months namely January, March, April, May, June, July and August. No two persons share the same birthday month. K's birthday is in January. There are the same number of person having their birthday before and after I. Only one person's birthday is there between H and I. J's birthday is in the month having 31 days but not in August. There are two person's birthday between J and E. G's birthday is before F's birthday. J's birthday is not before I.

Whose birthday is in the month of June?

- (A) J (B) I
(C) H (D) G
(E) F

Q6 Study the following information carefully and answer the questions accordingly.

Six employees Z, Y, X, A, B and C of a company went for a trip in the different months January, March, April, May, July and August but not necessarily in the same order. A went for a trip in the month of 30 days. There is only one employee who went for a trip between A and X. There are only two employees who went for a trip between X and Z. B went for a trip before Z. The number of employees who went for a trip before B is the same number of employees who went for a trip after C. Y does not go for a trip in August.

Four of the following five are alike in a certain way based on their positions in the above

arrangement and so form a group. Which of the following does not belong to the group?

- (A) April - Z (B) August - X
(C) May - A (D) January - B
(E) July - Y

Q7 Study the following information carefully and answer the questions accordingly.

Six employees Z, Y, X, A, B and C of a company went for a trip in the different months January, March, April, May, July and August but not necessarily in the same order. A went for a trip in the month of 30 days. There is only one employee who went for a trip between A and X. There are only two employees who went for a trip between X and Z. B went for a trip before Z. The number of employees who went for a trip before B is the same number of employees who went for a trip after C. Y does not go for a trip in August.

How many employees went before B ?

- (A) None (B) Three
(C) Five (D) Two
(E) None of these

Q8 Study the following information carefully and answer the questions accordingly.

Six employees Z, Y, X, A, B and C of a company went for a trip in the different months January, March, April, May, July and August but not necessarily in the same order. A went for a trip in the month of 30 days. There is only one employee who went for a trip between A and X. There are only two employees who went for a trip between X and Z. B went for a trip before Z. The number of employees who went for a trip before B is the same number of employees who went for a trip after C. Y does not go for a trip in August.

In which of the following month does C go for a trip?

- (A) January (B) August
(C) July (D) March
(E) None of these

Q9 Study the following information carefully and answer the questions accordingly.

Six employees Z, Y, X, A, B and C of a company went for a trip in the different months January, March, April, May, July and August but not necessarily in the same order. A went for a trip in the month of 30 days. There is only one employee who went for a trip between A and X. There are only two employees who went for a trip between X and Z. B went for a trip before Z. The number of employees who went for a trip before B is the same number of employees who went for a trip after C. Y does not go for a trip in August.

Which of the following employees went on a trip in May ?

- (A) B (B) C
(C) Y (D) Z
(E) None of these

Q10 Study the following information carefully and answer the questions accordingly.

Six employees Z, Y, X, A, B and C of a company went for a trip in the different months January, March, April, May, July and August but not necessarily in the same order. A went for a trip in the month of 30 days. There is only one employee who went for a trip between A and X. There are only two employees who went for a trip between X and Z. B went for a trip before Z. The number of employees who went for a trip before B is the same number of employees who went for a trip after C. Y does not go for a trip in August.

Which of the following statements is true with respect to the final arrangement ?

- (A) Two employees went for a trip before Z.
(B) A went on a trip in July.
(C) There were four employees who went for a trip between B and C.
(D) C went on trip just before Z.
(E) None of these

Q11 Directions: Study the following data carefully and answer the questions accordingly.

There are six members (P,Q,R,S,T and U) in a family. They all play different games. They play these games in six different months viz. March, April, May, June, July and August, but not necessarily in the same order. March is the first month and August is the last one. The rest follow the same order.

Games : Cricket, Carrom, Chess, Football, Tennis and Ludo.

The person who plays Ludo, is playing in the month having 31 days. P plays cricket, before R. R doesn't play Football. Two people play their games between T and R. T plays Chess. Neither T nor R plays in the month having 30 days. The person who plays Tennis, is playing immediately after the one who plays Ludo. S plays immediately before P. The one who plays Tennis, is playing in the month having 31 days. Q doesn't play in the month having 31 days. The one who plays Carrom, is playing in the month having 31 days.

How many people are playing between S and U?

- (A) 4 (B) 3
(C) 2 (D) 1
(E) 5

Q12 Directions: Study the following data carefully and answer the questions accordingly.

There are six members (P,Q,R,S,T and U) in a family. They all play different games. They play these games in six different months viz. March, April, May, June, July and August, but not

necessarily in the same order. March is the first month and August is the last one. The rest follow the same order.

Games : Cricket, Carrom, Chess, Football, Tennis and Ludo.

The person who plays Ludo, is playing in the month having 31 days. P plays cricket, before R. R doesn't play Football. Two people play their games between T and R. T plays Chess. Neither T nor R plays in the month having 30 days. The person who plays Tennis, is playing immediately after the one who plays Ludo. S plays immediately before P. The one who plays Tennis, is playing in the month having 31 days. Q doesn't play in the month having 31 days. The one who plays Carrom, is playing in the month having 31 days.

If Q is related to Cricket and T is related to Carrom, then in the same way, who is related to Football?

- (A) U (B) S
(C) P (D) R
(E) None of these

Q13 Directions: Study the following data carefully and answer the questions accordingly.

There are six members (P,Q,R,S,T and U) in a family. They all play different games. They play these games in six different months viz. March, April, May, June, July and August, but not necessarily in the same order. March is the first month and August is the last one. The rest follow the same order.

Games : Cricket, Carrom, Chess, Football, Tennis and Ludo.

The person who plays Ludo, is playing in the month having 31 days. P plays cricket, before R. R doesn't play Football. Two people play their games between T and R. T plays Chess. Neither T nor R plays in the month having 30 days. The

person who plays Tennis, is playing immediately after the one who plays Ludo. S plays immediately before P. The one who plays Tennis, is playing in the month having 31 days. Q doesn't play in the month having 31 days. The one who plays Carrom, is playing in the month having 31 days.

Who plays Football?

- (A) R (B) T
(C) Q (D) P
(E) U

Q14 Directions: Study the following data carefully and answer the questions accordingly.

There are six members (P,Q,R,S,T and U) in a family. They all play different games. They play these games in six different months viz. March, April, May, June, July and August, but not necessarily in the same order. March is the first month and August is the last one. The rest follow the same order.

Games : Cricket, Carrom, Chess, Football, Tennis and Ludo.

The person who plays Ludo, is playing in the month having 31 days. P plays cricket, before R. R doesn't play Football. Two people play their games between T and R. T plays Chess. Neither T nor R plays in the month having 30 days. The person who plays Tennis, is playing immediately after the one who plays Ludo. S plays immediately before P. The one who plays Tennis, is playing in the month having 31 days. Q doesn't play in the month having 31 days. The one who plays Carrom, is playing in the month having 31 days.

Who plays Ludo?

- (A) S (B) R
(C) T (D) U
(E) P

Hints & Solutions

Q1 Text Solution:

K's birthday is in January.

There are the same number of person having their birthday before and after I. ‘

Only one person's birthday is there between H and I.

J's birthday is in the month having 31 days but not in August.

There are two person's birthday between J and E.

G's birthday is before F's birthday

CASE 1	CASE 2
January (31) K	January (31) K
March (31) H	March (31) J
April (30) E	April (30) G
May (31) I	May (31) I
June(30) G	June(30) E
July (31) J	July (31) H
August (31) F	August (31) F

7) J's birthday is not before I. (This eliminates case 2)

CASE 1
January (31) K
March (31) H
April (30) E
May (31) I
June(30) G
July (31) J
August (31) F

Q2 Text Solution:

K's birthday is in January.

There are the same number of person having their birthday before and after I. ‘

Only one person's birthday is there between H and I.

J's birthday is in the month having 31 days but not in August.

There are two person's birthday between J and E.

G's birthday is before F's birthday

CASE 1	CASE 2
January (31) K	January (31) K
March (31) H	March (31) J
April (30) E	April (30) G
May (31) I	May (31) I
June(30) G	June(30) E
July (31) J	July (31) H
August (31) F	August (31) F

7) J's birthday is not before I. (This eliminates case 2)

CASE 1
January (31) K
March (31) H
April (30) E
May (31) I
June(30) G
July (31) J
August (31) F

Q3 Text Solution:

K's birthday is in January.

There are the same number of person having their birthday before and after I. ‘

Only one person's birthday is there between H and I.

J's birthday is in the month having 31 days but not in August.

There are two person's birthday between J and E.

G's birthday is before F's birthday

CASE 1	CASE 2
January (31) K	January (31) K
March (31) H	March (31) J
April (30) E	April (30) G

May (31)	I	May (31)	I
June(30)	G	June(30)	E
July (31)	J	July (31)	H
August (31)	F	August (31)	F

7) J's birthday is not before I. (This eliminates case 2)

CASE 1	
January (31)	K
March (31)	H
April (30)	E
May (31)	I
June(30)	G
July (31)	J
August (31)	F

Hence, it is clear that "H" have his birthday in March.

March is the correct answer.

Q4 Text Solution:

K's birthday is in January.

There are the same number of person having their birthday before and after I. ‘

Only one person's birthday is there between H and I.

J's birthday is in the month having 31 days but not in August.

There are two person's birthday between J and E.

G's birthday is before F's birthday

CASE 1	CASE 2
January (31) K	January (31) K
March (31) H	March (31) J
April (30) E	April (30) G
May (31) I	May (31) I
June(30) G	June(30) E
July (31) J	July (31) H
August (31) F	August (31) F

7) J's birthday is not before I. (This eliminates case 2)

CASE 1	
January (31)	K
March (31)	H
April (30)	E
May (31)	I
June(30)	G
July (31)	J
August (31)	F

Q5 Text Solution:

K's birthday is in January.

There are the same number of person having their birthday before and after I. ‘

Only one person's birthday is there between H and I.

J's birthday is in the month having 31 days but not in August.

There are two person's birthday between J and E.

G's birthday is before F's birthday

CASE 1	CASE 2
January (31) K	January (31) K
March (31) H	March (31) J
April (30) E	April (30) G
May (31) I	May (31) I
June(30) G	June(30) E
July (31) J	July (31) H
August (31) F	August (31) F

7) J's birthday is not before I. (This eliminates case 2)

CASE 1	
January (31)	K
March (31)	H
April (30)	E
May (31)	I
June(30)	G
July (31)	J
August (31)	F

Q6 Text Solution:

A went for a trip in the month of 30 days.

January 31	
March 31	
April 30	A
May 31	
July 31	
August 31	

There is only one employee who went for a trip between A and X.

	Case : 1	Case : 2
January 31	X	
March 31		
April 30	A	A
May 31		
July 31		X
August 31		

There are only two employees who went for a trip between X and Z

	Case : 1	Case : 2
January 31	X	
March 31		Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

B went for a trip before Z.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

The number of employees went for a trip before B is the same number of employees who went for a trip after C.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31	C	X
August 31		C

Y does not go for a trip in August.

Case 1: is eliminated.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	Y
July 31	C	X
August 31		C

Q7 Text Solution:

A went for a trip in the month of 30 days.

January 31	
March 31	
April 30	A
May 31	
July 31	
August 31	

There is only one employee who went for a trip between A and X.

	Case : 1	Case : 2
January 31	X	
March 31		
April 30	A	A
May 31		
July 31		X
August 31		

There are only two employees who went for a trip between X and Z

	Case : 1	Case : 2
January 31	X	
March 31		Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

B went for a trip before Z.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

The number of employees went for a trip before B is the same number of employees who went for a trip after C.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31	C	X
August 31		C

Y does not go for a trip in August.

Case 1: is eliminated.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	Y
July 31	C	X
August 31		C

Q8 Text Solution:

A went for a trip in the month of 30 days.

January 31	
March 31	
April 30	A
May 31	
July 31	
August 31	

There is only one employee who went for a trip between A and X.

	Case : 1	Case : 2
January 31	X	
March 31		
April 30	A	A
May 31		
July 31		X
August 31		

There are only two employees who went for a trip between X and Z

	Case : 1	Case : 2
January 31	X	
March 31		Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

B went for a trip before Z.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

The number of employees went for a trip before B is the same number of employees who went for a trip after C.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31	C	X
August 31		C

Y does not go for a trip in August.

Case 1: is eliminated.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	Y
July 31	C	X
August 31		C

Q9 Text Solution:

A went for a trip in the month of 30 days.

January 31	
March 31	
April 30	A
May 31	
July 31	
August 31	

There is only one employee who went for a trip between A and X.

	Case : 1	Case : 2
January 31	X	
March 31		
April 30	A	A
May 31		
July 31		X
August 31		

There are only two employees who went for a trip between X and Z

	Case : 1	Case : 2
January 31	X	
March 31		Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

B went for a trip before Z.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

The number of employees went for a trip before B is the same number of employees who went for a trip after C.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31	C	X
August 31		C

Y does not go for a trip in August.

Case 1: is eliminated.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	Y
July 31	C	X
August 31		C

Q10 Text Solution:

A went for a trip in the month of 30 days.

January 31	
March 31	
April 30	A
May 31	
July 31	
August 31	

There is only one employee who went for a trip between A and X.

	Case : 1	Case : 2
January 31	X	
March 31		
April 30	A	A
May 31		
July 31		X
August 31		

There are only two employees who went for a trip between X and Z

	Case : 1	Case : 2
January 31	X	
March 31		Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

B went for a trip before Z.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31		X
August 31		

The number of employees went for a trip before B is the same number of employees who went for a trip after C.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	
July 31	C	X
August 31		C

Y does not go for a trip in August.

Case 1: is eliminated.

	Case : 1	Case : 2
January 31	X	B
March 31	B	Z
April 30	A	A
May 31	Z	Y
July 31	C	X
August 31		C

Q11 Text Solution:

- Neither T nor R plays in the month having 30 days.
- Two people play their games between T and R.
- T plays Chess.

CASE 1

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	R	
JUNE		
JULY		
AUGUST	T	Chess

CASE 2

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	T	Chess
JUNE		
JULY		
AUGUST	R	

4. The person who plays Tennis, is playing immediately after the one who plays Ludo.
5. The person who plays Ludo, is playing in the month having 31 days.
6. The one who plays Tennis, is playing in the month having 31 days.

Therefore, Case 1 is no longer valid.

CASE 2

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	T	Chess
JUNE		
JULY		Ludo
AUGUST	R	Tennis

7. P plays cricket, before R.
8. S plays immediately before P.

CASE 2

MONTH	PERSON	GAME
MARCH	S	
APRIL	P	Cricket
MAY	T	Chess
JUNE		
JULY		Ludo
AUGUST	R	Tennis

9. Q doesn't play in the month having 31 days.
10. The one who plays Carrom, is playing in the month having 31 days.

CASE 2

MONTH	PERSON	GAME
MARCH	S	Carrom
APRIL	P	Cricket
MAY	T	Chess
JUNE	Q	Football
JULY	U	Ludo
AUGUST	R	Tennis

Q12 Text Solution:

1. Neither T nor R plays in the month having 30 days.
2. Two people play their games between T and R.
3. T plays Chess.

CASE 1

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	R	
JUNE		
JULY		
AUGUST	T	Chess

CASE 2

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	T	Chess
JUNE		
JULY		
AUGUST	R	

4. The person who plays Tennis, is playing immediately after the one who plays Ludo.
5. The person who plays Ludo, is playing in the month having 31 days.
6. The one who plays Tennis, is playing in the month having 31 days.

Therefore, Case 1 is no longer valid.

CASE 2

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	T	Chess
JUNE		
JULY		Ludo
AUGUST	R	Tennis

7. P plays cricket, before R.
8. S plays immediately before P.

CASE 2

MONTH	PERSON	GAME
MARCH	S	
APRIL	P	Cricket
MAY	T	Chess
JUNE		
JULY		Ludo
AUGUST	R	Tennis

9. Q doesn't play in the month having 31 days.
10. The one who plays Carrom, is playing in the month having 31 days.

CASE 2

MONTH	PERSON	GAME
MARCH	S	Carrom
APRIL	P	Cricket
MAY	T	Chess
JUNE	Q	Football
JULY	U	Ludo
AUGUST	R	Tennis

Q13 Text Solution:

1. Neither T nor R plays in the month having 30 days.
2. Two people play their games between T and R.
3. T plays Chess.

CASE 1

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	R	
JUNE		
JULY		
AUGUST	T	Chess

CASE 2

MONTH	PERSON	GAME
MARCH		
APRIL		
MAY	T	Chess
JUNE		
JULY		
AUGUST	R
