

Reasoning

Parallel Row Seating Arrangement

Level-1

Q1 Study the following information carefully and answer the questions given below:

Twelve students are sitting in parallel rows. E, F, G, H, I and J sit in row 1 while M, N, O, P, Q and R sit in row 2. Students in row 1 and row 2 face each other. Students of row 1 face south while students of row 2 face north.

F sits second to the right of G, who faces O. One person sits between O and Q, who sits at one of the extreme ends. F does not sit at any extreme end. M sits to the immediate right of N, who sits fifth left to the Q. R sits opposite I, who is not adjacent to F. I sits immediately right to the H. J sits second to the right of E but not opposite to P. How many students sit between M and Q in the same row?

- | | |
|-----------|----------|
| (A) Three | (B) Four |
| (C) Five | (D) One |
| (E) Two | |

Q2 Study the following information carefully and answer the questions given below:

Twelve students are sitting in parallel rows. E, F, G, H, I and J sit in row 1 while M, N, O, P, Q and R sit in row 2. Students in row 1 and row 2 face each other. Students of row 1 face south while students of row 2 face north.

F sits second to the right of G, who faces O. One person sits between O and Q, who sits at one of the extreme ends. F does not sit at any extreme end. M sits to the immediate right of N, who sits fifth left to the Q. R sits opposite I, who is not

adjacent to F. I sits immediately right to the H. J sits second to the right of E but not opposite to P. Who sits opposite Q?

- | | |
|-------------------|-------|
| (A) I | (B) H |
| (C) F | (D) E |
| (E) None of these | |

Q3 Study the following information carefully and answer the questions given below:

Twelve students are sitting in parallel rows. E, F, G, H, I and J sit in row 1 while M, N, O, P, Q and R sit in row 2. Students in row 1 and row 2 face each other. Students of row 1 face south while students of row 2 face north.

F sits second to the right of G, who faces O. One person sits between O and Q, who sits at one of the extreme ends. F does not sit at any extreme end. M sits to the immediate right of N, who sits fifth left to the Q. R sits opposite I, who is not adjacent to F. I sits immediately right to the H. J sits second to the right of E but not opposite to P. Who sits second to the left of O?

- | | |
|-------------------|-------|
| (A) M | (B) R |
| (C) Q | (D) F |
| (E) None of these | |

Q4 Study the following information carefully and answer the questions given below:

Twelve students are sitting in parallel rows. E, F, G, H, I and J sit in row 1 while M, N, O, P, Q and R sit in row 2. Students in row 1 and row 2 face each other. Students of row 1 face south while students of row 2 face north.

F sits second to the right of G, who faces O. One person sits between O and Q, who sits at one of the extreme ends. F does not sit at any extreme end. M sits to the immediate right of N, who sits fifth left to the Q. R sits opposite I, who is not adjacent to F. I sits immediately right to the H. J sits second to the right of E but not opposite to P. Who sits to the immediate left of R ?

- (A) Q (B) G
(C) E (D) N
(E) O

Q5 Study the following information carefully and answer the questions given below:

Twelve students are sitting in parallel rows. E, F, G, H, I and J sit in row 1 while M, N, O, P, Q and R sit in row 2. Students in row 1 and row 2 face each other. Students of row 1 face south while students of row 2 face north.

F sits second to the right of G, who faces O. One person sits between O and Q, who sits at one of the extreme ends. F does not sit at any extreme end. M sits to the immediate right of N, who sits fifth left to the Q. R sits opposite I, who is not adjacent to F. I sits immediately right to the H. J sits second to the right of E but not opposite to P. Who sits to the immediate right of I?

- (A) E (B) G
(C) M (D) O
(E) None of these

Q6 Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 A, B, C, D and E are seated and all face towards south. In row-2 P, Q, R, S and T are seated and all face towards the north. People seated in row-1 face people seated in row-2. S sits in the middle of the row. The immediate

neighbor of S faces E. E sits three places away from B. T sits diagonally opposite to B. A faces P. C and Q does not sit on any of the extreme ends of the row. D sits right of B.

Four of the following five are alike in a certain way based on their positions in the above arrangement and so form a group. Which of the following does not belong to the group ?

- (A) C (B) S
(C) A (D) P
(E) R

Q7 Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 A, B, C, D and E are seated and all face towards south. In row-2 P, Q, R, S and T are seated and all face towards the north. People seated in row-1 face people seated in row-2. S sits in the middle of the row. The immediate neighbor of S faces E. E sits three places away from B. T sits diagonally opposite to B. A faces P. C and Q does not sit on any of the extreme ends of the row. D sits right of B.

Which of the following faces R ?

- (A) B (B) A
(C) C (D) E
(E) None of these

Q8 Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 A, B, C, D and E are seated and all face towards south. In row-2 P, Q, R, S and T are seated and all face towards the north. People seated in row-1 face people seated in row-2. S sits in the middle of the row. The immediate

neighbor of S faces E. E sits three places away from B. T sits diagonally opposite to B. A faces P. C and Q does not sit on any of the extreme ends of the row. D sits right of B.

Which of the following people faces the one who sits just left of T ?

- (A) E (B) None
(C) A (D) B
(E) None of these

Q9 Study the following data carefully and answer the questions accordingly.

Ten people sit in two-parallel row. Five people in each row. In row-1 A, B, C, D and E are seated and all face towards south. In row-2 P, Q, R, S and T are seated and all face towards the north. People seated in row-1 face people seated in row-2. S sits in the middle of the row. The immediate neighbor of S faces E. E sits three places away from B. T sits diagonally opposite to B. A faces P. C and Q does not sit on any of the extreme ends of the row. D sits right of B.

Which of the following sits just left of D ?

- (A) None (B) C
(C) E (D) A
(E) B

Q10 Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 A, B, C, D and E are seated and all face towards south. In row-2 P, Q, R, S and T are seated and all face towards the north. People seated in row-1 face people seated in row-2. S sits in the middle of the row. The immediate neighbor of S faces E. E sits three places away from B. T sits diagonally opposite to B. A faces P.

C and Q does not sit on any of the extreme ends of the row. D sits right of B.

Who among the following persons is/are sitting at the extreme end of the row ?

- (A) P (B) Q
(C) A (D) E
(E) D

Q11 Directions: Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 P, Q, R, S and T are seated and all face towards south. In row-2 A, B, C, D and E are seated and all face towards the north. People seated in row-1 face people seated in row-2. R sits third to the right of T, either R or T sit at any of the extreme ends of the row. The one who faces R sits second to the left of E. C sits immediately left of E. The one who faces C sits immediately right of S. Q faces A. B does not sit at any of the extreme ends of the row. Q sits two places away from P.

How many people are seated between R and T?

- (A) Three (B) None
(C) Two (D) Four
(E) None of these

Q12 Directions: Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 P, Q, R, S and T are seated and all face towards south. In row-2 A, B, C, D and E are seated and all face towards the north. People seated in row-1 face people seated in row-2. R sits third to the right of T, either R or T sit at any of the extreme ends of the row. The one who faces R sits second to the left of E. C sits immediately left of E. The one who faces C sits immediately right of S. Q faces A. B does not sit

at any of the extreme ends of the row. Q sits two places away from P.

How many people sit to the left of P?

- (A) Two (B) Three
(C) One (D) Four
(E) None of these

Q13 Directions: Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 P, Q, R, S and T are seated and all face towards south. In row-2 A, B, C, D and E are seated and all face towards the north. People seated in row-1 face people seated in row-2. R sits third to the right of T, either R or T sit at any of the extreme ends of the row. The one who faces R sits second to the left of E. C sits immediately left of E. The one who faces C sits immediately right of S. Q faces A. B does not sit at any of the extreme ends of the row. Q sits two places away from P.

Who among the following persons is/are sitting at the extreme end of the row?

- (A) B (B) S
(C) D (D) R
(E) None of these

Q14 Study the following information carefully and answer the given questions:

Twelve persons are sitting in two parallel rows containing six persons each in such a way that there is an equal distance between adjacent persons. In the Row-1, P, Q, R, S, T and U are sitting and all of them are facing towards north direction. In the Row-2, A, B, C, D, E and F are sitting and all of them are facing towards south direction. In the given seating arrangement, each member sitting in a row faces another member of the other row.

C sits second from any of the end of the row. Two persons sit between C and F. One of the immediate neighbour of F faces T. Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. C does not face P. R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C.

How many persons sit between S and T?

- (A) One
(B) Two
(C) More than three
(D) Three
(E) None of these

Q15 Study the following information carefully and answer the given questions:

Twelve persons are sitting in two parallel rows containing six persons each in such a way that there is an equal distance between adjacent persons. In the Row-1, P, Q, R, S, T and U are sitting and all of them are facing towards north direction. In the Row-2, A, B, C, D, E and F are sitting and all of them are facing towards south direction. In the given seating arrangement, each member sitting in a row faces another member of the other row.

C sits second from any of the end of the row. Two persons sit between C and F. One of the immediate neighbour of F faces T. Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. C does not face P. R

sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C.

What is the position of A with respect to B?

- (A) Second to the right
- (B) Immediate left
- (C) Second to the left
- (D) Third to the left
- (E) None of these

Q16 Study the following information carefully and answer the given questions:

Twelve persons are sitting in two parallel rows containing six persons each in such a way that there is an equal distance between adjacent persons. In the Row-1, P, Q, R, S, T and U are sitting and all of them are facing towards north direction. In the Row-2, A, B, C, D, E and F are sitting and all of them are facing towards south direction. In the given seating arrangement, each member sitting in a row faces another member of the other row.

C sits second from any of the end of the row. Two persons sit between C and F. One of the immediate neighbour of F faces T. Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. C does not face P. R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C.

Which of the following pair of persons sit extreme ends of the row?

- (A) P, F
- (B) B, T
- (C) E, Q
- (D) T, A
- (E) None of these

Q17 Study the following information carefully and answer the given questions:

Twelve persons are sitting in two parallel rows containing six persons each in such a way that there is an equal distance between adjacent persons. In the Row-1, P, Q, R, S, T and U are sitting and all of them are facing towards north direction. In the Row-2, A, B, C, D, E and F are sitting and all of them are facing towards south direction. In the given seating arrangement, each member sitting in a row faces another member of the other row.

C sits second from any of the end of the row. Two persons sit between C and F. One of the immediate neighbour of F faces T. Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. C does not face P. R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C.

Who among the following sit opposite to R?

- (A) E
- (B) A
- (C) C
- (D) D
- (E) None of these

Q18 Study the following information carefully and answer the given questions:

Twelve persons are sitting in two parallel rows containing six persons each in such a way that there is an equal distance between adjacent

persons. In the Row-1, P, Q, R, S, T and U are sitting and all of them are facing towards north direction. In the Row-2, A, B, C, D, E and F are sitting and all of them are facing towards south direction. In the given seating arrangement, each member sitting in a row faces another member of the other row.

C sits second from any of the end of the row. Two persons sit between C and F. One of the immediate neighbour of F faces T. Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. C does not face P. R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C.

Who among the following sits third to the left of E?

- (A) D (B) B
(C) A (D) C
(E) None of these

Q19 Directions: Study the following data carefully and answer the questions accordingly.

Ten people sit in a two-parallel row. Five people in each row. In row-1 P, Q, R, S and T are seated and all face towards south. In row-2 A, B, C, D and E are seated and all face towards the north. People seated in row-1 face people seated in row-2. R sits third to the right of T, either R or T sit at any of the extreme ends of the row. The one who faces R sits second to the left of E. C sits immediately left of E. The one who faces C sits immediately right of S. Q faces A. B does not sit at any of the extreme ends of the row. Q sits two places away from P.

Who sits to the immediate right of E?

- (A) None (B) D
(C) B (D) A
(E) None of these

Hints & Solutions

Q1 Text Solution:

1. F sits second to the right of G, who faces O.
2. One student sits between O and Q, who sits at one of the extreme ends.
3. F does not sit at any extreme end.

So, we have one case,

Case 1

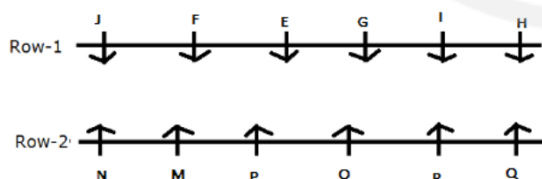

4. M sits immediately to the right of N, who sits fifth left to the Q.

Case 1

5. R sits opposite I, who is not adjacent to F.
6. J sits second to the right of E but not opposite to P.
7. I sits immediately right to the H.

So, we have,

According to the common solution, we can say that three students sit between M and Q in the same row.

Thus, the correct answer is option A.

Q2 Text Solution:

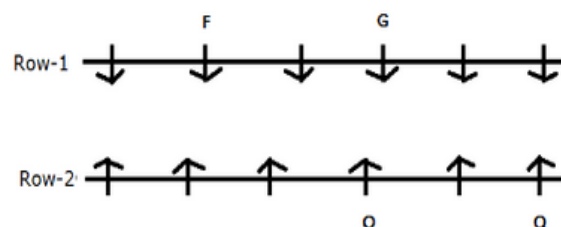

1. F sits second to the right of G, who faces O.

2. One person sits between O and Q, who sits at one of the extreme ends.

3. F does not sit at any extreme end.

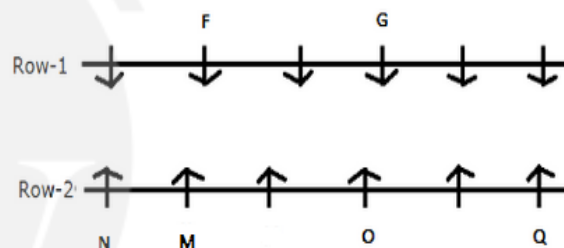

So, we have one case,

Case 1

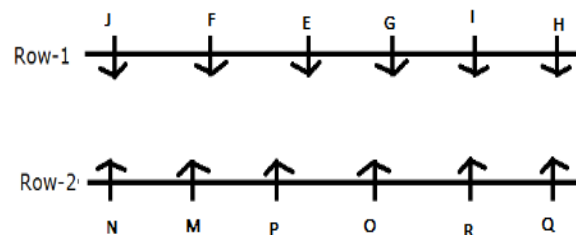

4. M sits immediately to the right of N, who sits fifth left to the Q.

Case 1

5. R sits opposite I, who is not adjacent to F.
6. J sits second to the right of E but not opposite to P.
7. I sits immediately right to the H.

So, we have,

According to the common solution, we can say that H sits opposite to Q.

Thus, the correct answer is option B.

Q3 Text Solution:

Android App

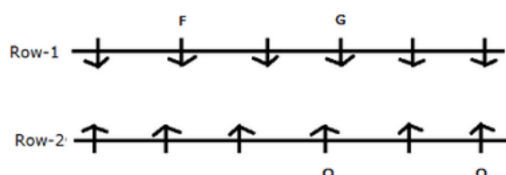

iOS App

PW Website

1. F sits second to the right of G, who faces O.
2. One student sits between O and Q, who sits at one of the extreme ends.
3. F does not sit at any extreme end.

So, we have one case,

Case 1

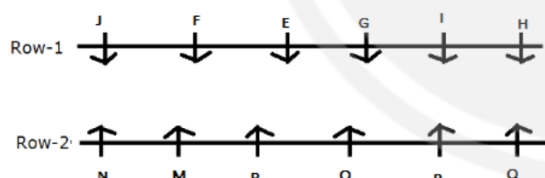

4. M sits immediately to the right of N, who sits fifth left to the Q.

Case 1

5. R sits opposite I, who is not adjacent to F.
6. J sits second to the right of E but not opposite to P.
7. I sits immediately right to the H.

So, we have,

According to the common solution, we can say that M sits second to the left of O.

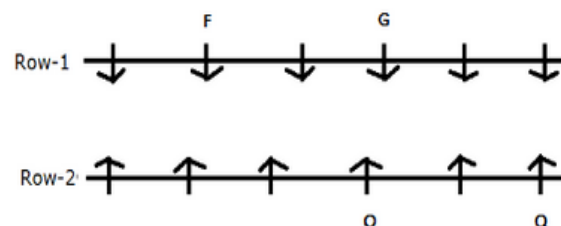

Thus, the correct answer is option A.

Q4 Text Solution:

1. F sits second to the right of G, who faces O.
2. One student sits between O and Q, who sits at one of the extreme ends.
3. F does not sit at any extreme end.

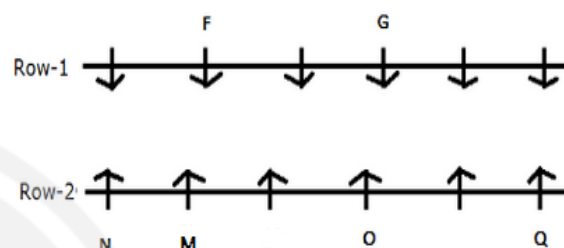

So, we have one case,

Case 1

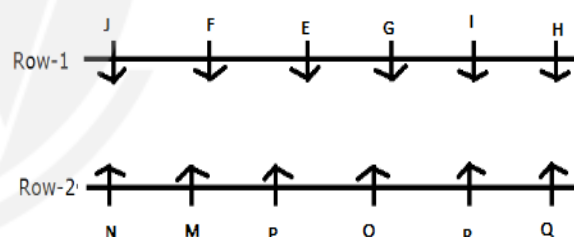

4. M sits immediately to the right of N, who sits fifth left to the Q.

Case 1

5. R sits opposite I, who is not adjacent to F.
6. J sits second to the right of E but not opposite to P.
7. I sits immediately right to the H.

So, we have,

According to the common solution, we can say that O sits to the immediate left of R.

Thus, the correct answer is option E.

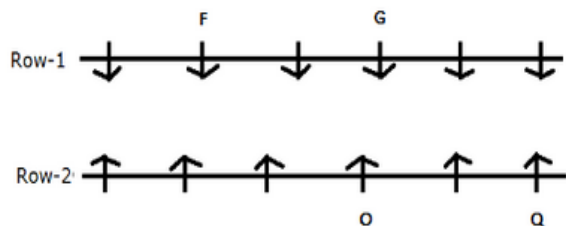

Q5 Text Solution:

1. F sits second to the right of G, who faces O.
2. One person sits between O and Q, who sits at one of the extreme ends.
3. F does not sit at any extreme end.

So, we have one case,

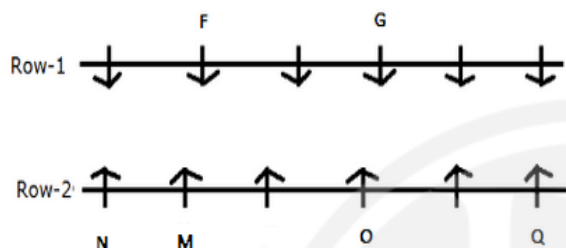

Case 1

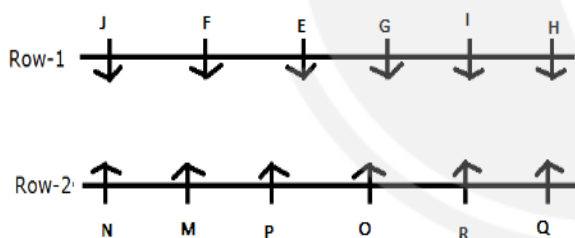

4. M sits immediately to the right of N, who sits fifth left to the Q.

Case 1

5. R sits opposite I, who is not adjacent to F.
 6. J sits second to the right of E but not opposite to P.
 7. I sits immediately right to the H.
 So, we have,

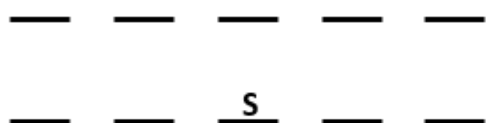

According to the common solution, we can say that G sits immediately right of I.

Thus, the correct answer is option B.

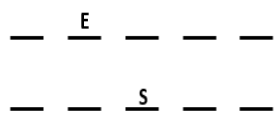

Q6 Text Solution:

S sits in the middle of the row.

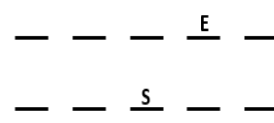

The immediate neighbor of S faces E.

Case : 1

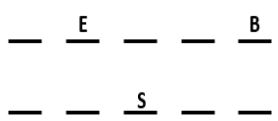

Case : 2

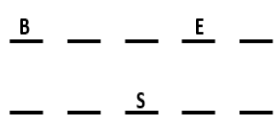

E sits three places away from B.

Case : 1

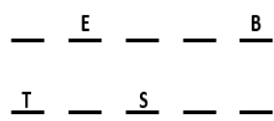

Case : 2

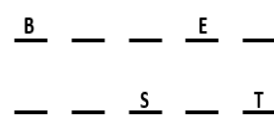

T sits diagonally opposite to B.

Case : 1

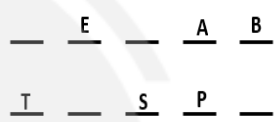

Case : 2

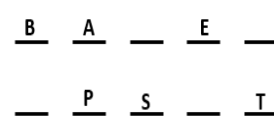

A faces P.

Case : 1

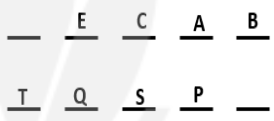

Case : 2

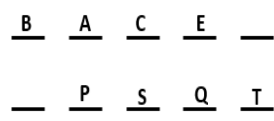

C and Q does not sit on any of the extreme ends of the row.

Case : 1

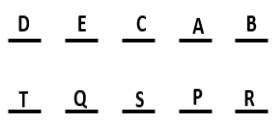

Case : 2

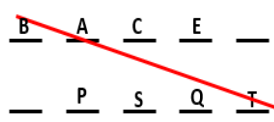

D sits right of B.

Case 2: is eliminated.

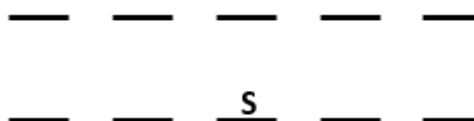

Case : 1

Case : 2

**Q7 Text Solution:**

S sits in the middle of the row.

The immediate neighbor of S faces E.

Case : 1

— E — — —
— — S — —

Case : 2

— — — E —
— — S — —

E sits three places away from B.

Case : 1

Q12 Text Solution:

R sits third to the right of T, either R or T sit at any of the extreme ends of the row.

Case : 1

—	R	—	—	T
—	—	—	—	—

Case : 2

R	—	—	T	—
—	—	—	—	—

The one who faces R sits second to the left of E.

Case : 1

—	R	—	—	T
—	—	—	E	—

Case : 2

R	—	—	T	—
—	—	E	—	—

C sits immediately left of E.

Case : 1

—	R	—	—	T
—	—	C	E	—

Case : 2

R	—	—	T	—
—	C	E	—	—

The one who faces C sits immediately right of S.

Case : 1

—	R	—	S	T
—	—	C	E	—

Case : 2

R	—	S	T	—
—	C	E	—	—

Q faces A.

Case : 1

Q	R	—	S	T
A	—	C	E	—

Case : 2

R	—	S	T	Q
—	C	E	—	A

B does not sit at any of the extreme ends of the row.

Case : 1

Q	R	—	S	T
A	B	C	E	—

Case : 2

R	—	S	T	Q
—	C	E	B	A

Q sits two places away from P.

Case 2: is eliminated.

Case : 1

Q	R	P	S	T
A	B	C	E	D

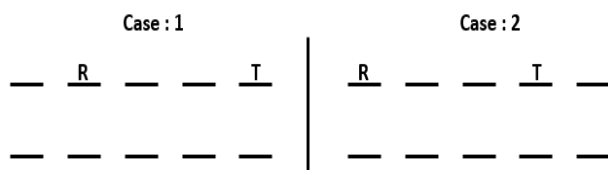

Case : 2

R	—	S	T	Q
—	C	E	B	A

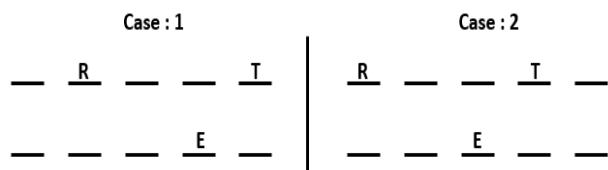

Q13 Text Solution:

R sits third to the right of T, either R or T sit at any of the extreme ends of the row.

The one who faces R sits second to the left of E.

C sits immediately left of E.

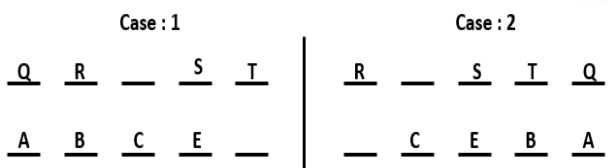

The one who faces C sits immediately right of S.

Q faces A.

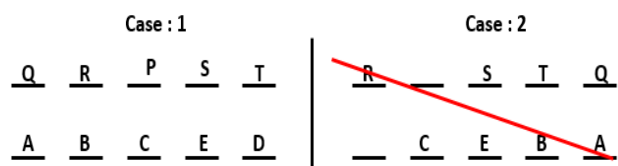

B does not sit at any of the extreme ends of the row.

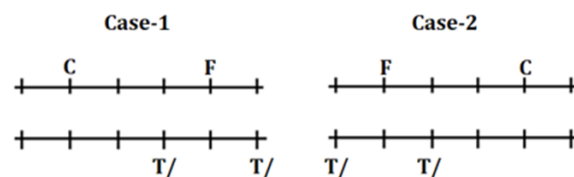

Q sits two places away from P.

Case 2: is eliminated.

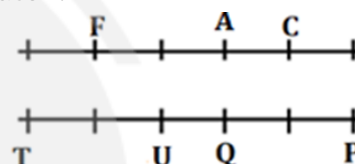

Q14 Text Solution:

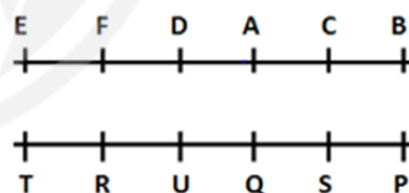

From the given conditions, C sits second from any of the end of the row. From this condition there are two possibilities. Two persons sit between C and F. One of immediate neighbour of F faces T.

Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. From this condition case-1 will be eliminated. C does not face P.

R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C. The final arrangement is-

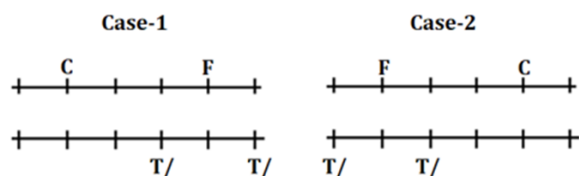

Three persons sit between S and T.

Q15 Text Solution:

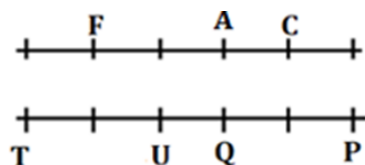

From the given conditions, C sits second from any of the end of the row. From this condition there are two possibilities. Two persons sit between C and F. One of immediate neighbour of

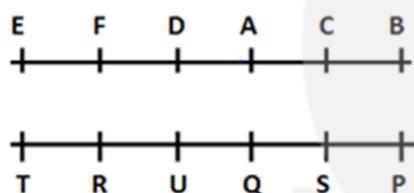

F faces T.

Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. From this condition case-1 will be eliminated. C does not face P.

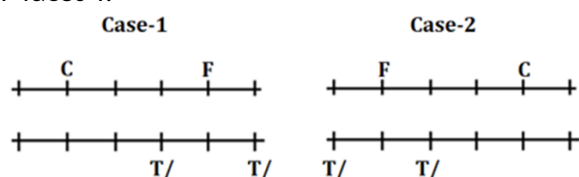

R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C. The final arrangement is-

A is the second to the right of B.

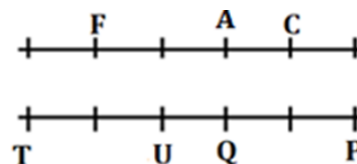

Q16 Text Solution:

From the given conditions, C sits second from any of the end of the row. From this condition there are two possibilities. Two persons sit between C and F. One of immediate neighbour of F faces T.

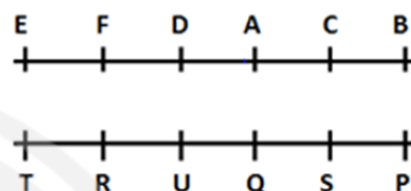

Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does

not sit any of the end of the row. From this condition case-1 will be eliminated. C does not face P.

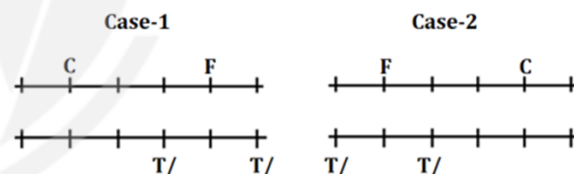

R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C. The final arrangement is-

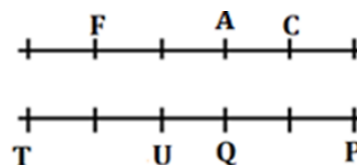

B, T sit extreme ends of the row.

Q17 Text Solution:

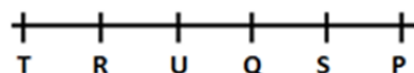

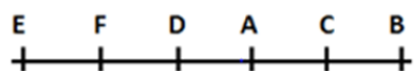

From the given conditions, C sits second from any of the end of the row. From this condition there are two possibilities. Two persons sit between C and F. One of immediate neighbour of F faces T.

Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. From this condition case-1 will be eliminated. C does not face P.

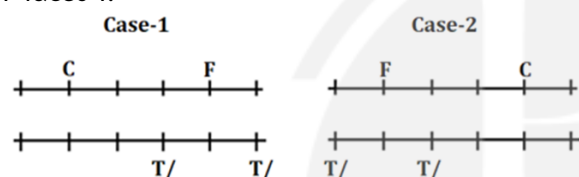

R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of C. The final arrangement is-

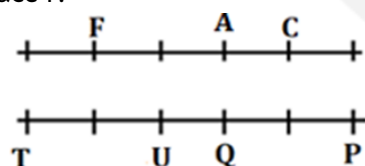

F sits opposite to R.

Q18 Text Solution:

From the given conditions, C sits second from any of the end of the row. From this condition there are two possibilities. Two persons sit between C and F. One of immediate neighbour of F faces T.

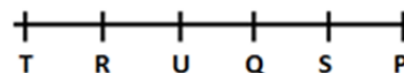

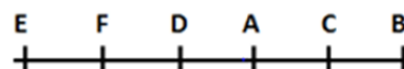

Two persons sit between T and Q. P sits third to right of U. U and P does not sit adjacent to T. One of the immediate neighbour of U faces A. A does not sit any of the end of the row. From this condition case-1 will be eliminated. C does not face P.

R sits one of the positions to the left of Q. One of the immediate neighbour of R faces D. Two persons sit between D and B who sits to the left of

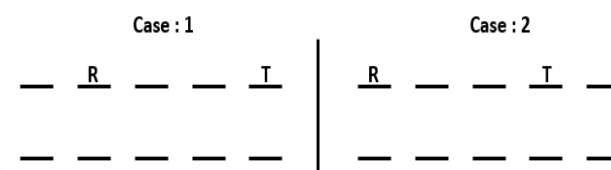

of C. The final arrangement is-

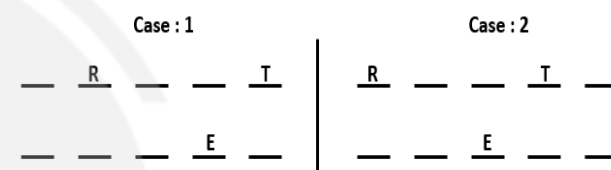

A sits third to the left of E.

Q19 Text Solution:

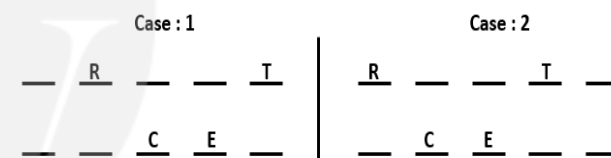

R sits third to the right of T, either R or T sit at any of the extreme ends of the row.

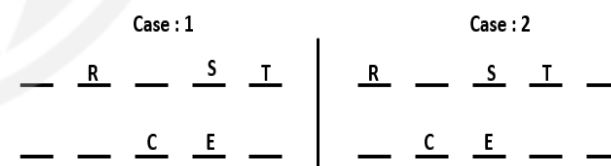

The one who faces R sits second to the left of E.

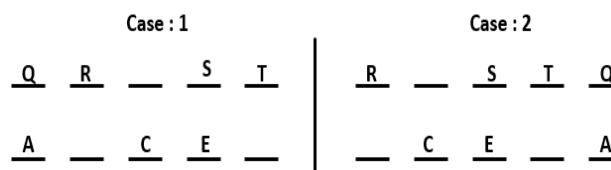

C sits immediately left of E.

The one who faces C sits immediately right of S.

Q faces A.

B does not sit at any of the extreme ends of the row.
