

Reasoning

Square Arrangements

Level-1

Q1 Directions: Study the following data carefully and answer the questions accordingly.

Eight different spices viz. Coriander, Fennel, Jeera, Basil, Pepper, Cinnamon, Oregano, and Turmeric are placed in a square box such that all of them are facing towards the center, but not necessarily in the same order. Four items are placed at the corners while four items are placed at the middle of the sides.

Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano. The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano. Fennel was placed to the immediate left of Jeera.

How many items are placed between Jeera and Oregano when counted from the left of Jeera?

- (A) Two (B) Four
(C) One (D) Three
(E) More than four

Q2 Directions: Study the following data carefully and answer the questions accordingly.

Eight different spices viz. Coriander, Fennel, Jeera, Basil, Pepper, Cinnamon, Oregano, and Turmeric are placed in a square box such that all of them are facing towards the center, but not necessarily in the same order. Four items are placed at the corners while four items are placed at the middle of the sides.

Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon

and Pepper, which is placed to the immediate left of Oregano. The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano. Fennel was placed to the immediate left of Jeera.

If Coriander is related to Basil and Pepper is related to Jeera in a certain way, then Turmeric is related to which of the following items?

- (A) Cinnamon (B) Oregano
(C) Fennel (D) Basil
(E) None of these

Q3 Directions: Study the following data carefully and answer the questions accordingly.

Eight different spices viz. Coriander, Fennel, Jeera, Basil, Pepper, Cinnamon, Oregano, and Turmeric are placed in a square box such that all of them are facing towards the center, but not necessarily in the same order. Four items are placed at the corners while four items are placed at the middle of the sides.

Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano. The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano. Fennel was placed to the immediate left of Jeera.

What is the position of Oregano with respect to Basil?

- (A) Second to the left
- (B) Third to the right
- (C) Fourth to the left
- (D) Immediate right
- (E) None of these

Q4 Directions: Study the following data carefully and answer the questions accordingly.

Eight different spices viz. Coriander, Fennel, Jeera, Basil, Pepper, Cinnamon, Oregano, and Turmeric are placed in a square box such that all of them are facing towards the center, but not necessarily in the same order. Four items are placed at the corners while four items are placed at the middle of the sides.

Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano. The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano. Fennel was placed to the immediate left of Jeera.

Which of the following items is placed second to the right of Cinnamon?

- (A) Coriander
- (B) Basil
- (C) Pepper
- (D) Oregano
- (E) None of these

Q5 Directions: Study the following data carefully and answer the questions accordingly.

Eight different spices viz. Coriander, Fennel, Jeera, Basil, Pepper, Cinnamon, Oregano, and Turmeric are placed in a square box such that all of them are facing towards the center, but not necessarily in the same order. Four items are placed at the corners while four items are placed at the middle of the sides.

Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano. The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano. Fennel was placed to the immediate left of Jeera.

Which of the following statement is/are true with respect to the final arrangement?

- (A) Cinnamon is placed third to the left of Fennel
- (B) Both Coriander and Basil are placed at the corners of the box
- (C) More than two items are placed from the left of Turmeric to Jeera
- (D) Neither fennel nor Oregano is adjacent to Basil
- (E) None of these are true

Q6 Answer the questions based on the information given below.

Eight persons I, J, K, L, M, N, O and P are sitting around a square table facing towards the center of the table. Four persons are sitting center the sides of the table while four are sitting at the corner of the table. The one who are sitting in the center the sides of the table like different actresses i.e. Alia, Deepika, Kareena and Kiara and the one who are sitting at the corner of the square table like different actor i.e. Akshay, Salman, Ranveer and Kartik.

I sits third to the left of the one who likes Kartik. M likes Kiara and sits to the immediate right of N, who does not like Kartik. O sits opposite to the one who likes Alia. J sits to the immediate right of L. The one who likes Ranveer sits to the immediate left of the one who likes Deepika. O is an immediate neighbor of the one who likes Salman. P sits second to the right of K.

Who sits opposite to the one who likes Akshay?

- (A) The one who likes Ranveer
- (B) M
- (C) The one who likes Kartik
- (D) L
- (E) None of these

Q7 Answer the questions based on the information given below.

Eight persons I, J, K, L, M, N, O and P are sitting around a square table facing towards the center of the table. Four persons are sitting center the sides of the table while four are sitting at the corner of the table. The one who are sitting in the center the sides of the table like different actresses i.e. Alia, Deepika, Kareena and Kiara and the one who are sitting at the corner of the square table like different actor i.e. Akshay, Salman, Ranveer and Kartik.

I sits third to the left of the one who likes Kartik. M likes Kiara and sits to the immediate right of N, who does not like Kartik. O sits opposite to the one who likes Alia. J sits to the immediate right of L. The one who likes Ranveer sits to the immediate left of the one who likes Deepika. O is an immediate neighbor of the one who likes Salman. P sits second to the right of K.

Who sits second to the right of M?

- (A) N
- (B) The one who likes Kareena
- (C) K
- (D) The one who likes Alia
- (E) None of these

Q8 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. R sits immediate left of W. P sits

immediate left of S. U sits opposite to the one who is immediate right of S. V sits second to the left of U. T sits second to the left of R. When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W.

How many persons sit between Q and W when counted from the left of Q?

- (A) 3
- (B) 1
- (C) 2
- (D) 4
- (E) None of these

Q9 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. R sits immediate left of W. P sits immediate left of S. U sits opposite to the one who is immediate right of S. V sits second to the left of U. T sits second to the left of R. When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W.

What is the position of R with respect to U?

- (A) Second to the right
- (B) Third to the left
- (C) Immediate right
- (D) Immediate left
- (E) None of these

Q10 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. R sits immediate left of W. P sits immediate left of S. U sits opposite to the one

who is immediate right of S. V sits second to the left of U. T sits second to the left of R. When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W.

Who among the following persons is sitting exactly opposite?

- (A) RQ (B) TP
(C) QU (D) VW
(E) None of these

Q11 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. R sits immediate left of W. P sits immediate left of S. U sits opposite to the one who is immediate right of S. V sits second to the left of U. T sits second to the left of R. When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W.

Who among the following pair of persons are immediate neighbours?

- (A) PQ (B) TR
(C) SP (D) QW
(E) None of these

Q12 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. R sits immediate left of W. P sits immediate left of S. U sits opposite to the one who is immediate right of S. V sits second to the left of U. T sits second to the left of R. When

counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W.

Who among the following person sits second to the left of P?

- (A) V (B) R
(C) U (D) Q
(E) None of these

Q13 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. The number of persons sits between R and Q is the same as the number of persons T and U. U sits second to the right of W. V sits second to the right of T. Q sits second to the right of R, who sits opposite W. Only two persons sit between V and S. W is not an immediate neighbour of S.

How many persons sit between S and P when counted from the left of S?

- (A) 3 (B) 1
(C) 2 (D) 4
(E) 5

Q14 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. The number of persons sits between R and Q is the same as the number of persons T and U. U sits second to the right of W. V sits second to the right of T. Q sits second to the right of R, who sits opposite W. Only two

persons sit between V and S. W is not an immediate neighbour of S.

What is the position of R with respect to U?

- (A) Second to the right
- (B) Third to the right
- (C) Immediate right
- (D) Immediate left
- (E) None of these

Q15 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. The number of persons sits between R and Q is the same as the number of persons T and U. U sits second to the right of W. V sits second to the right of T. Q sits second to the right of R, who sits opposite W. Only two persons sit between V and S. W is not an immediate neighbour of S.

Who among the following persons is sitting exactly opposite?

- (A) RQ
- (B) TW
- (C) QU
- (D) VW
- (E) None of these

Q16 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. The number of persons sits between R and Q is the same as the number of persons T and U. U sits second to the right of W. V sits second to the right of T. Q sits second to the right of R, who sits opposite W. Only two

persons sit between V and S. W is not an immediate neighbour of S.

Who among the following pair of persons are immediate neighbours?

- (A) PQ
- (B) TR
- (C) SP
- (D) QU
- (E) None of these

Q17 Study the following information carefully and answer the questions accordingly.

Eight persons - P, Q, R, S, T, U, V and W are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Two persons are sitting on each side of the table. The number of persons sits between R and Q is the same as the number of persons T and U. U sits second to the right of W. V sits second to the right of T. Q sits second to the right of R who sits opposite W. Only two persons sit between V and S. W is not an immediate neighbour of S.

Who among the following person sits second to the left of P?

- (A) V
- (B) R
- (C) U
- (D) Q
- (E) T

Q18 Study the following information carefully and answer the questions accordingly.

Eight persons -L, M, N, O, P, Q, R and S are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Four of them sit in the corners and four of them sit in the middle of the sides. P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M who do not sit adjacent to Q. Only one person sits between Q and P who sits in the middle of the side. Three persons sit between S and Q. L

sits opposite the one who is second to the right of N. O do not sit opposite N.

Who among the following person sits second to the left of N?

- (A) R (B) Q
(C) S (D) L
(E) O

Q19 Study the following information carefully and answer the questions accordingly.

Eight persons -L, M, N, O, P, Q, R and S are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Four of them sit in the corners and four of them sit in the middle of the sides. P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M who do not sit adjacent to Q. Only one person sits between Q and P who sits in the middle of the side. Three persons sit between S and Q. L sits opposite the one who is second to the right of N. O do not sit opposite N.

How many persons sit between L and O, when counted from the left of O?

- (A) One (B) Two
(C) Three (D) Four
(E) None

Q20 Study the following information carefully and answer the questions accordingly.

Eight persons -L, M, N, O, P, Q, R and S are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Four of them sit in the corners and four of them sit in the middle of the sides. P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M who do not sit adjacent to Q. Only one person sits between Q and P who sits in the middle of the side. Three persons sit between S and Q. L

sits opposite the one who is second to the right of N. O do not sit opposite N.

Which of the following statement(s) is/are true with respect to the final arrangement?

- (A) One person sits between P and N
(B) O sits second to the right of Q
(C) P sits to the immediate left of O
(D) Both S and L are immediate neighbours
(E) All are true

Q21 Study the following information carefully and answer the questions accordingly.

Eight persons -L, M, N, O, P, Q, R and S are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Four of them sit in the corners and four of them sit in the middle of the sides. P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M who do not sit adjacent to Q. Only one person sits between Q and P who sits in the middle of the side. Three persons sit between S and Q. L sits opposite the one who is second to the right of N. O do not sit opposite N.

Who among the following person sits opposite to M?

- (A) R (B) P
(C) N (D) Q
(E) S

Q22 Study the following information carefully and answer the questions accordingly.

Eight persons -L, M, N, O, P, Q, R and S are sitting on the square table such that all of them are facing towards the centre, but not necessarily in the same order. Four of them sit in the corners and four of them sit in the middle of the sides. P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M who do not sit adjacent to Q. Only one person

sits between Q and P who sits in the middle of the side. Three persons sit between S and Q. L sits opposite the one who is second to the right of N. O do not sit opposite N.

What is the position of S with respect to M?

- (A) Third to the right
- (B) Second to the left
- (C) Second to the right
- (D) Immediate right
- (E) Immediate left

Hints & Solutions

Q1 Text Solution:

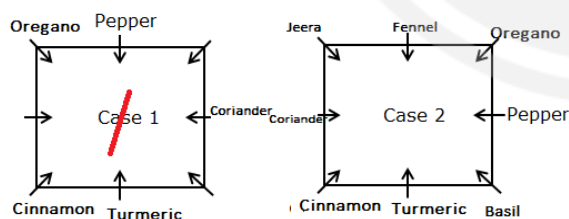

1) Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano.

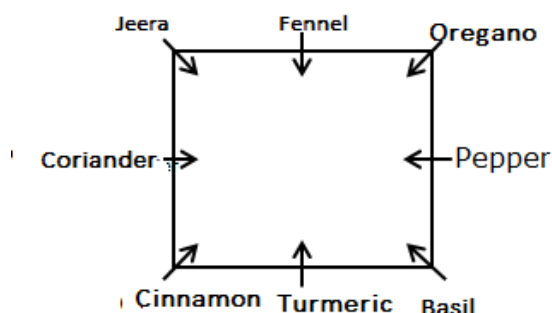

2) The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano.

3) Fennel was placed to the immediate left of Jeera. Hence, case 1 gets eliminated.

Final arrangement will be:-

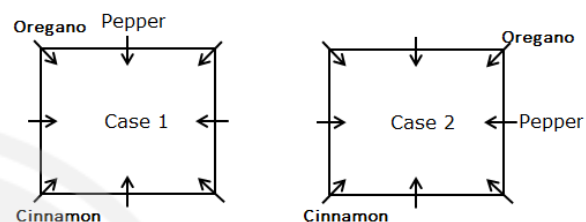

According to the common solution we can say that one item is placed between Jeera and Oregano when counted from the left of Jeera.

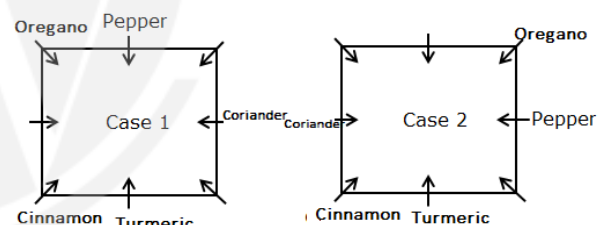

Hence, the correct answer is option C.

Q2 Text Solution:

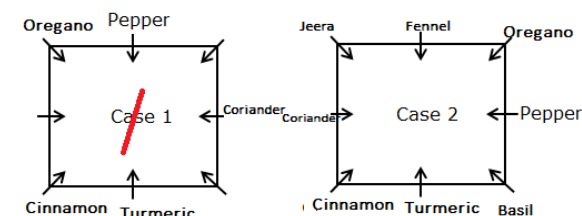

1) Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano.

2) The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano.

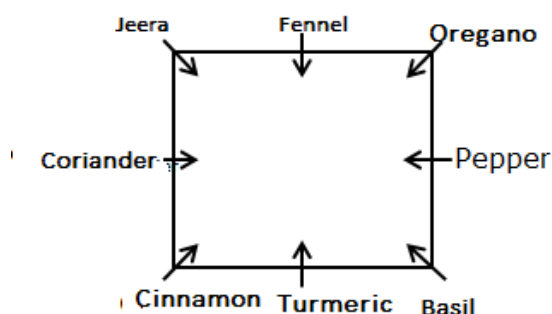

3) Fennel was placed to the immediate left of Jeera. Hence, case 1 gets eliminated.

Final arrangement will be:-

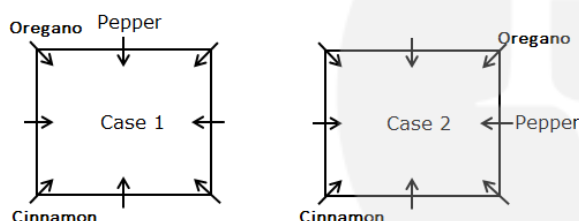

According to the common solution we can say that If Coriander is related to Basil and Pepper is related to Jeera in a certain way, then Turmeric is related to Oregano.

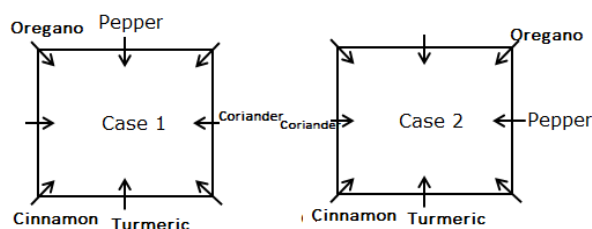

Hence, the correct answer is option B.

Q3 Text Solution:

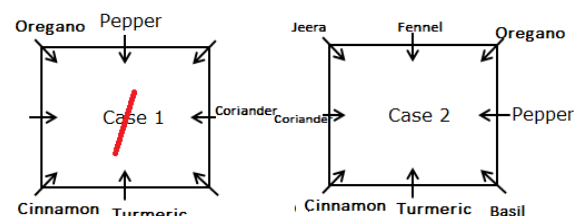

1) Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano.

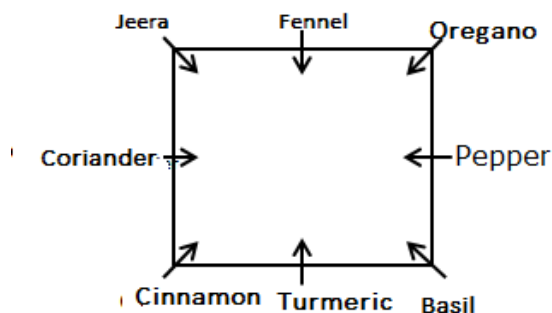

2) The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano.

3) Fennel was placed to the immediate left of Jeera. Hence, case 1 gets eliminated.

Final arrangement will be:-

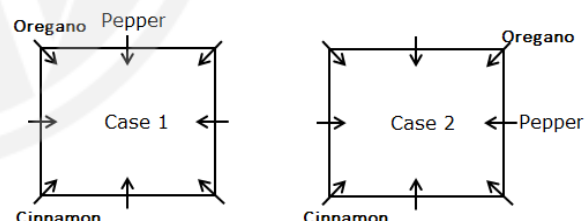

According to the common solution we can say that Oregano is second right with respect to Basil.

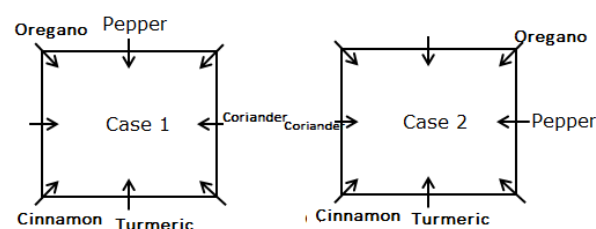

Hence, the correct answer is option E.

Q4 Text Solution:

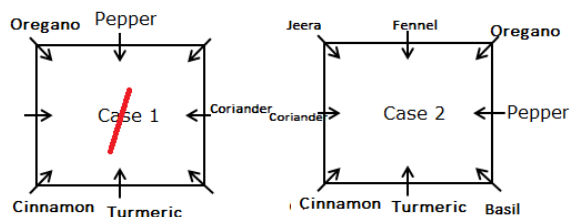

1) Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano.

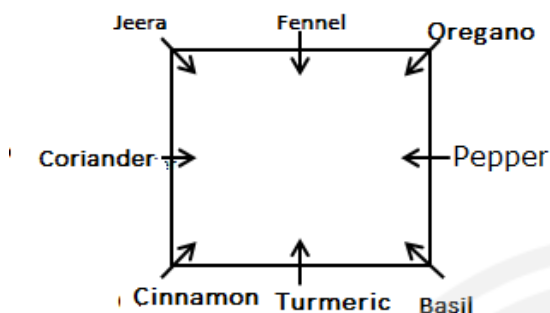

2) The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano.

3) Fennel was placed to the immediate left of Jeera. Hence, case 1 gets eliminated.

Final arrangement will be:-

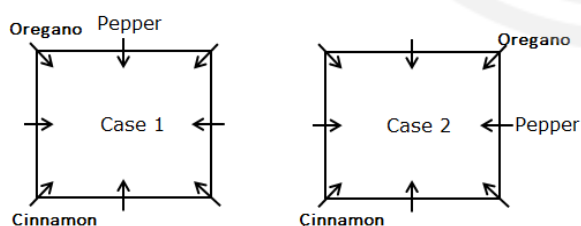

According to the common solution we can say that Basil is placed second to the right of Cinnamon.

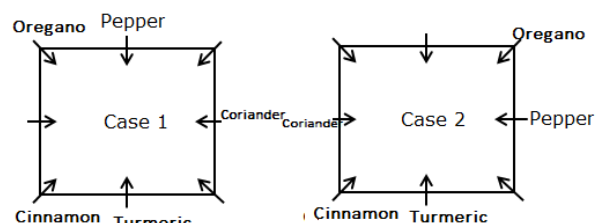

Hence, the correct answer is option B.

Q5 Text Solution:

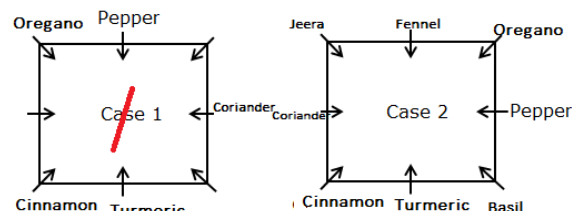

1) Cinnamon is placed at one of the corners of the box. Two items are placed between Cinnamon and Pepper, which is placed to the immediate left of Oregano.

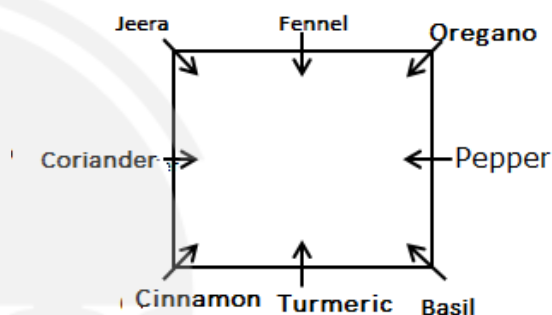

2) The number of items between Oregano and Cinnamon is the same as the number of items between Pepper and Coriander when counted from the left of Cinnamon and Pepper. One item is placed between Coriander and Turmeric, which is not placed adjacent to Oregano.

3) Fennel was placed to the immediate left of Jeera. Hence, case 1 gets eliminated.

Final arrangement will be:-

According to the common solution we can say that Neither fennel nor Oregano is adjacent to Basil.

Hence, the correct answer is option D.

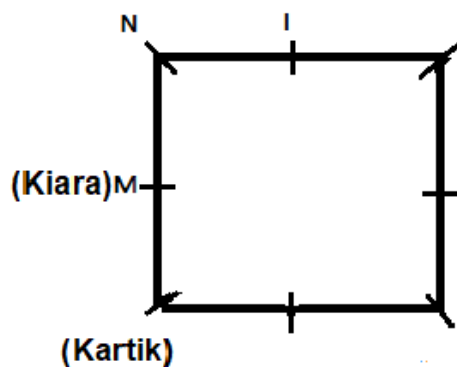

Q6 Text Solution:

1. I sits third to the left of the one who likes Kartik.

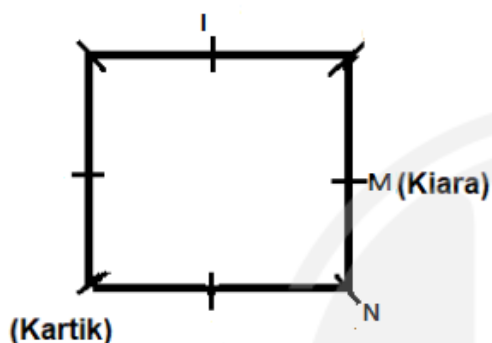

2. M likes Kiara and sits to the immediate right of N, who does not like Kartik.

Case I: When N sits second to the left of the one who likes Kartik

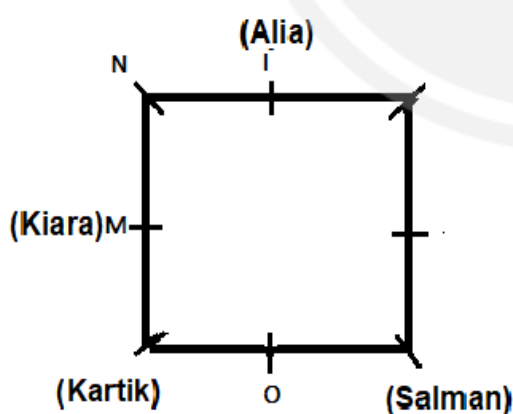

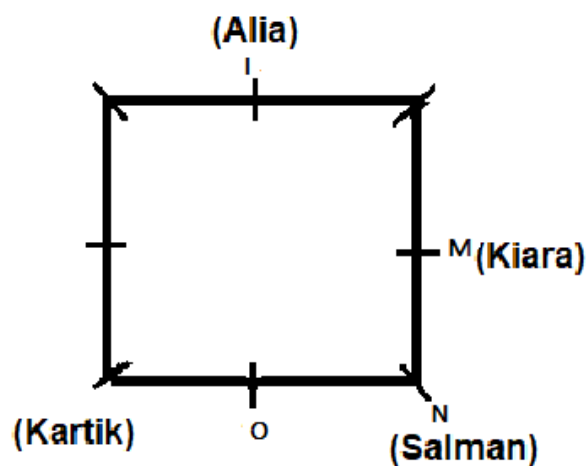

Case II: When N sits 2nd to the right of the one who likes Kartik

3. O sits opposite to the one who likes Alia.
 4. O is an immediate neighbor of the one who likes Salman.
 Case I: When N sits 2nd to the left of the one who likes Kartik.

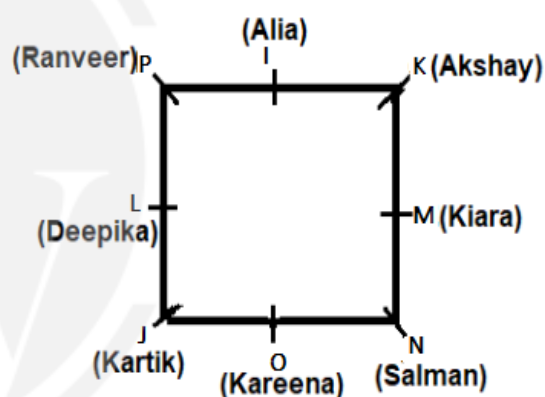

Case II: When N sits 2nd to the right of the one who likes Kartik.

5. L sits to the immediate left of J. The one who likes Deepika sits to the immediate right of the one who likes Ranveer, which is not possible in case I so, case I is invalid.

6. P sits second to the right of K.

The final arrangement is as follows:

According to the common solution, we can say that the one who likes Kartik sits opposite to the one who likes Akshay.

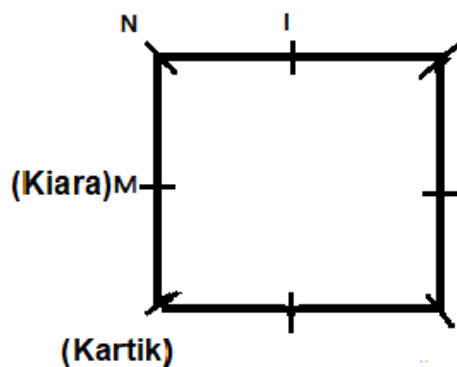

Hence, the correct answer is option C.

Q7 Text Solution:

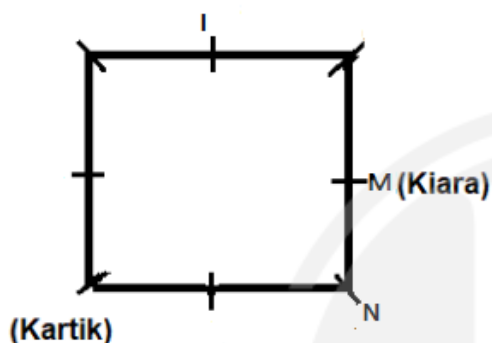

1. I sits third to the left of the one who likes Kartik.
2. M likes Kiara and sits to the immediate right of N, who does not like Kartik.

Case I: When N sits second to the left of the one who likes Kartik

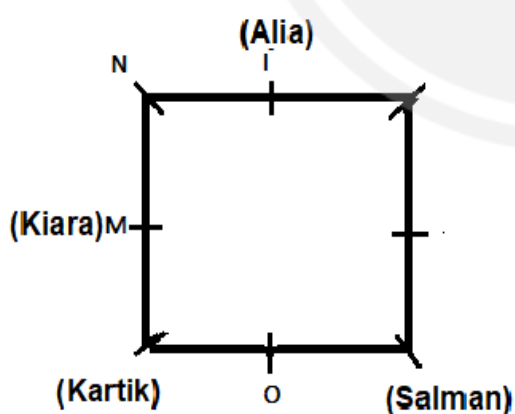

Case II: When N sits 2nd to the right of the one who likes Kartik

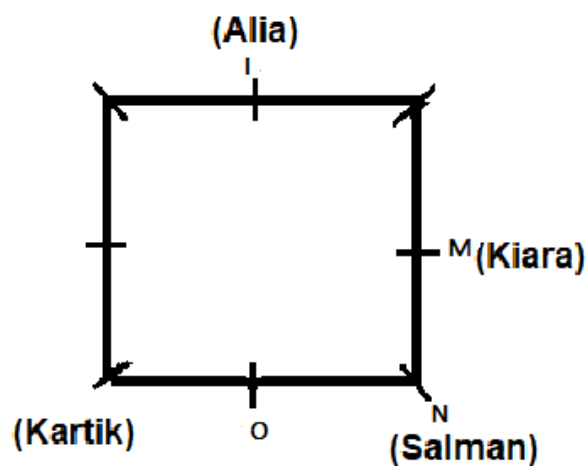

3. O sits opposite to the one who likes Alia.

4. O is an immediate neighbor of the one who likes Salman.

Case I: When N sits 2nd to the left of the one who likes Kartik.

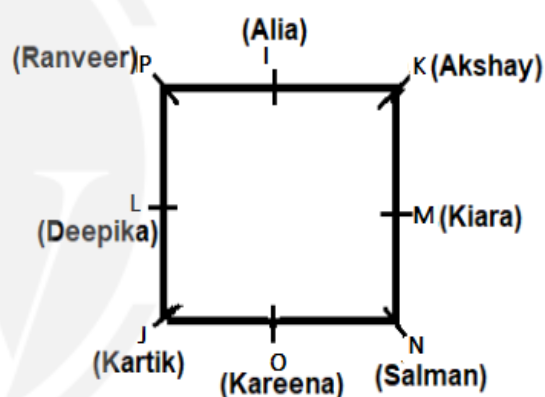

Case II: When N sits 2nd to the right of the one who likes Kartik.

5. L sits to the immediate left of J. The one who likes Deepika sits to the immediate right of the one who likes Ranveer, which is not possible in case I so, case I is invalid.

6. P sits second to the right of K.

The final arrangement is as follows:

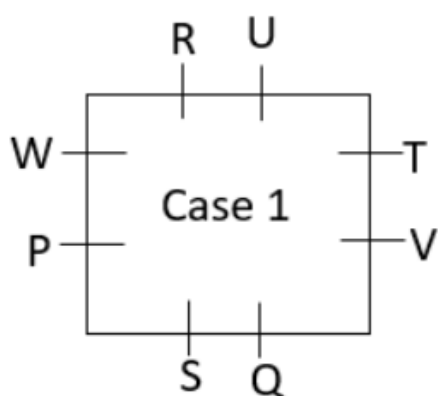

According to the common solution, we can say that the one who likes Alia sits second to the right of M.

Hence, the correct answer is option D.

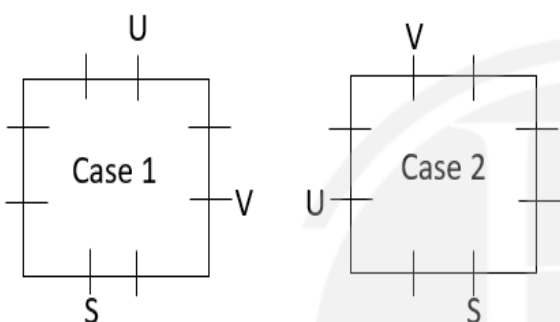

Q8 Text Solution:

Final answer:

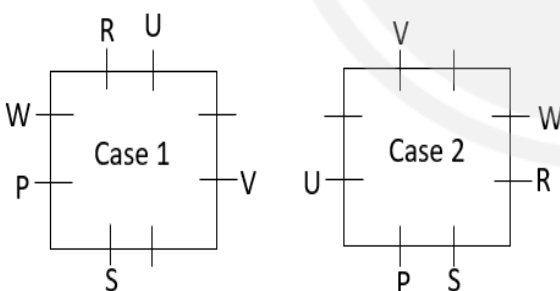

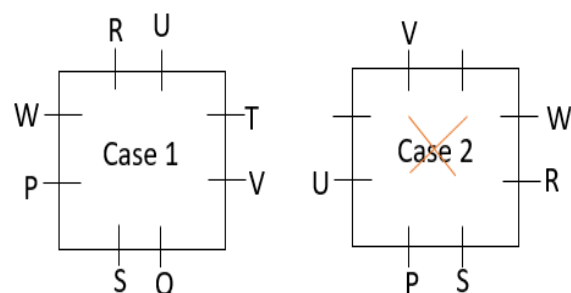

U sits opposite to the one who is immediate right of S. V sits second to the left of U. From these conditions, we get,

When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W. R sits immediate left of W. P sits immediate left of S.

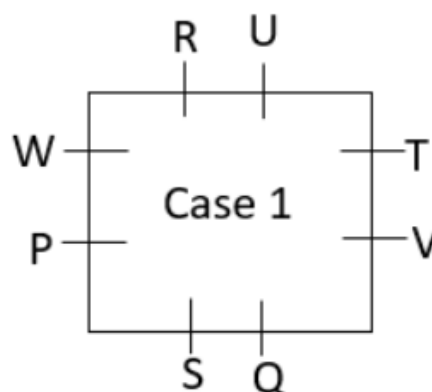

T sits second to the left of R. From this condition Case 2 gets rejected, and we get,

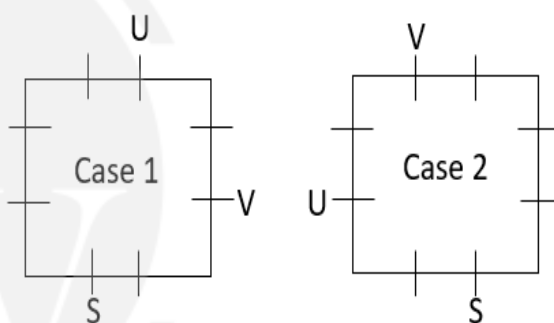

Hence, **two persons sit between Q and W when counted from the left of Q.**

Q9 Text Solution:

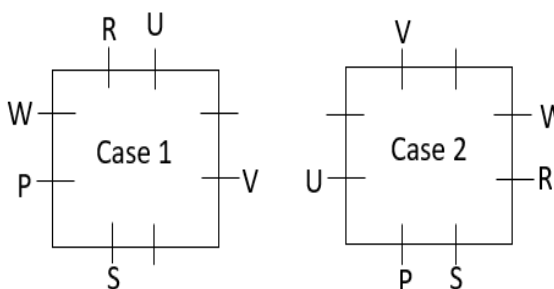

Final answer:

U sits opposite to the one who is immediate right of S. V sits second to the left of U. From these conditions, we get,

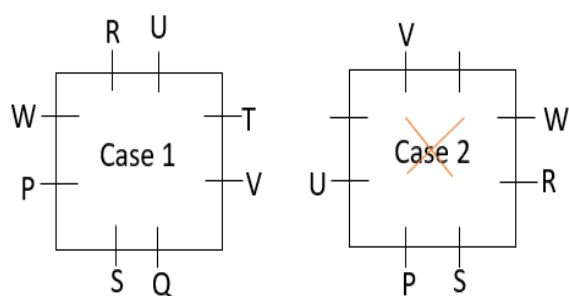

When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W. R sits immediate left of W. P sits immediate left of S.

T sits second to the left of R. From this condition Case 2 gets rejected, and we get,

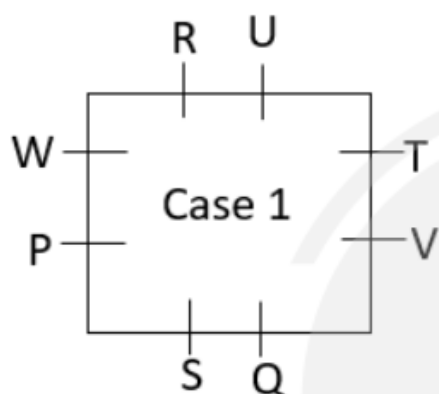

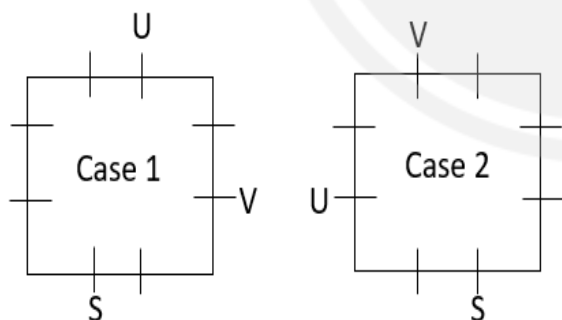

Hence, the position of R with respect to U is immediate right.

Q10 Text Solution:

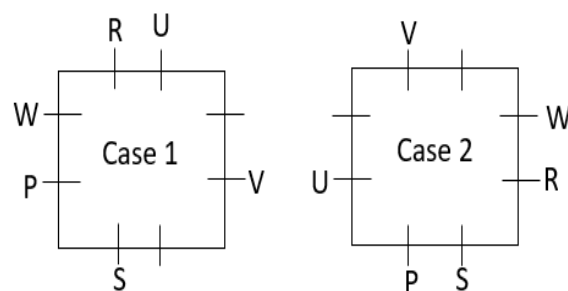

Final answer:

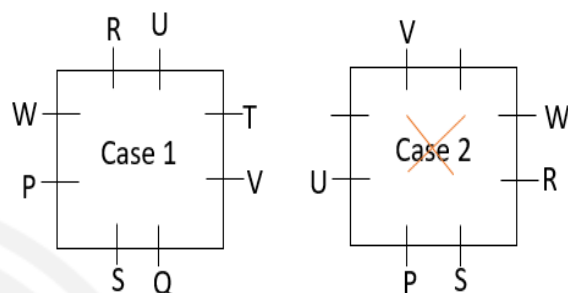

U sits opposite to the one who is immediate right of S. V sits second to the left of U. From these conditions, we get,

When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W. R sits immediate left of W. P sits immediate left of S.

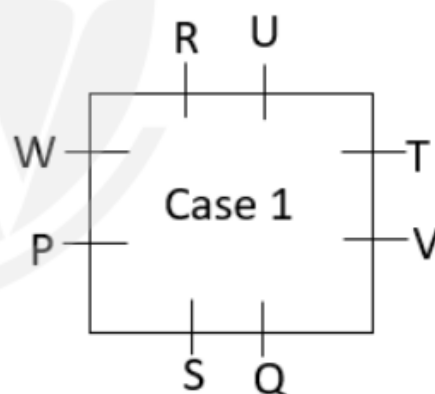

T sits second to the left of R. From this condition Case 2 gets rejected, and we get,

Hence, QU persons are sitting exactly opposite to each other.

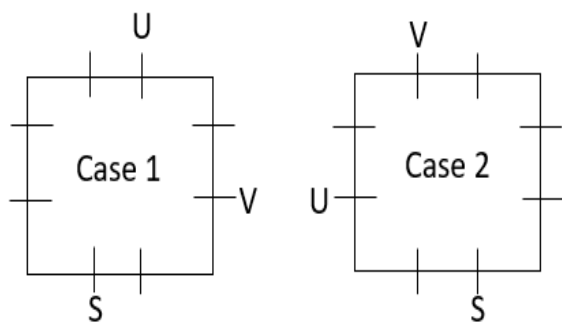

Q11 Text Solution:

Final answer:

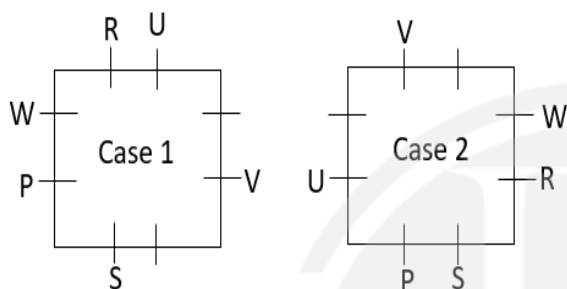

U sits opposite to the one who is immediate right of S. V sits second to the left of U. From these conditions, we get,

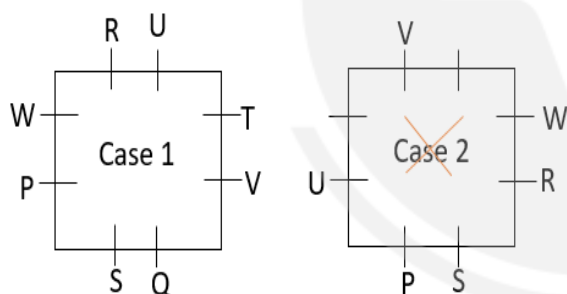

When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W. R sits immediate left of W. P sits immediate left of S.

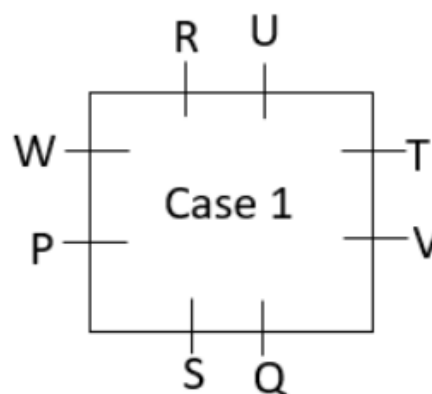

T sits second to the left of R. From this condition Case 2 gets rejected, and we get,

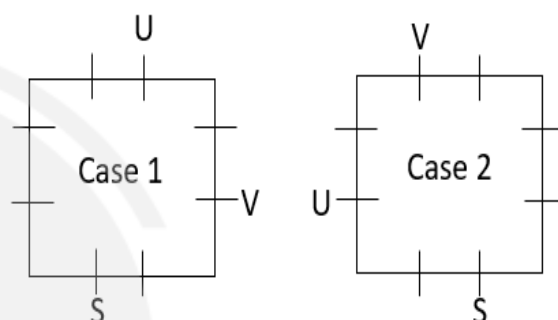

Hence, **SP pair of persons are immediate neighbours**

Q12 Text Solution:

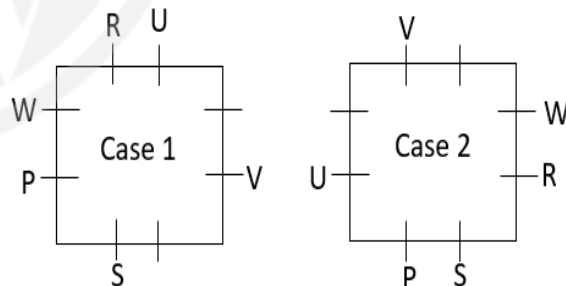

Final answer:

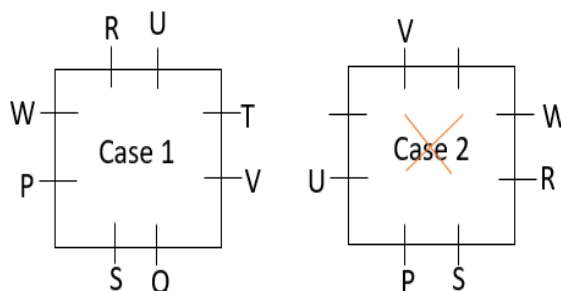

U sits opposite to the one who is immediate right of S. V sits second to the left of U. From these conditions, we get,

When counted from the right of V, the number of persons sitting between U and V is the same as the number of persons sitting S and W. R sits immediate left of W. P sits immediate left of S.

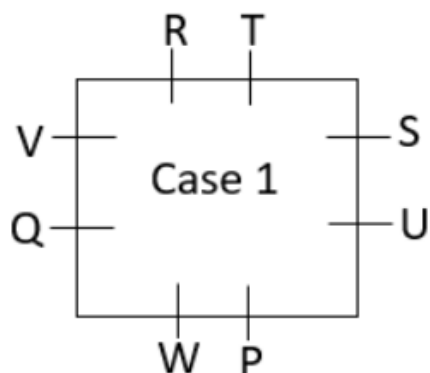

T sits second to the left of R. From this condition Case 2 gets rejected, and we get,

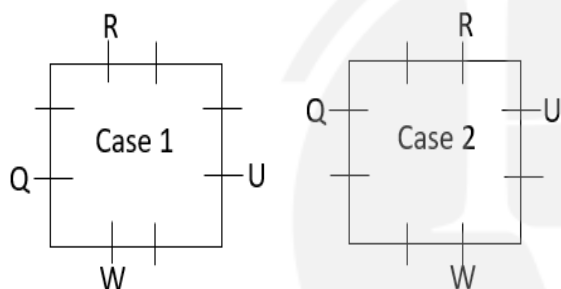

Hence, **R sits second to the left of P.**

Q13 Text Solution:

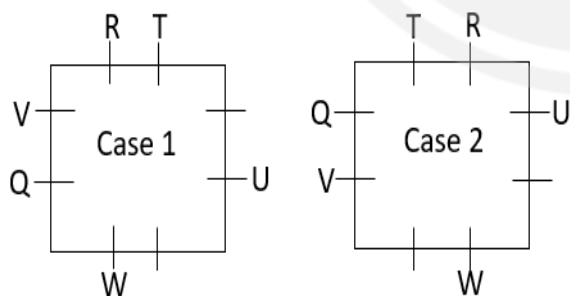

Final answer:

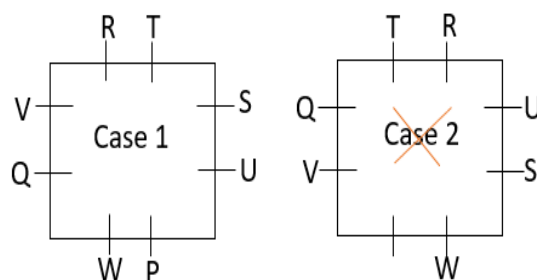

U sits second to the right of W. Q sits second to the right of R, who sits opposite W. From these conditions, we get,

The number of persons sits between R and Q is the same as the number of persons T and U. V sits second to the right of T.

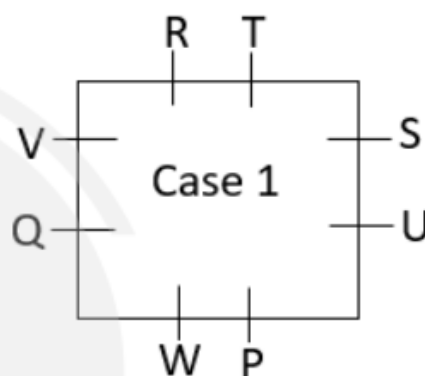

Only two persons sit between V and S. W is not an immediate neighbour of S. From this condition Case 2 gets rejected, and we get,

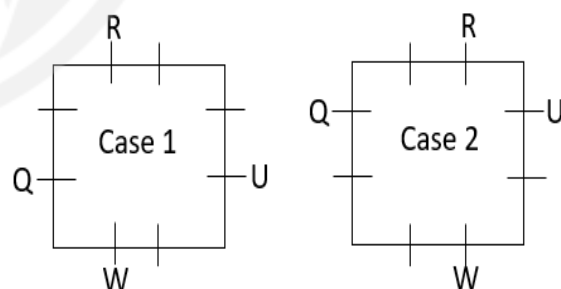

Hence, **One persons sit between S and P when counted from the left of S.**

Q14 Text Solution:

Final answer:

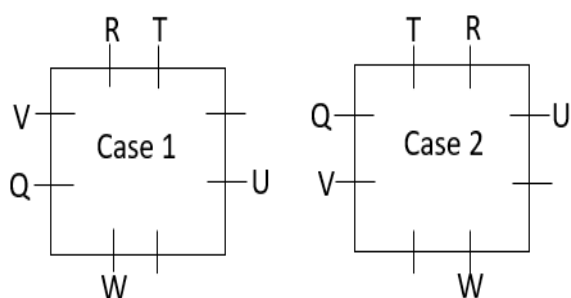

U sits second to the right of W. Q sits second to the right of R, who sits opposite W. From these conditions, we get,

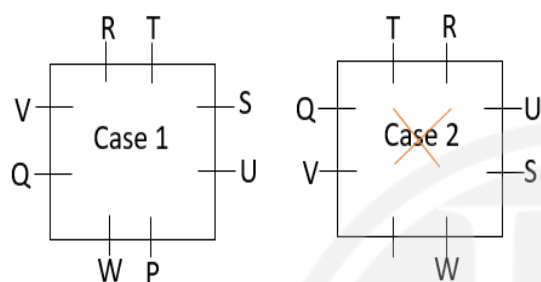

The number of persons sits between R and Q is the same as the number of persons T and U. V sits second to the right of T.

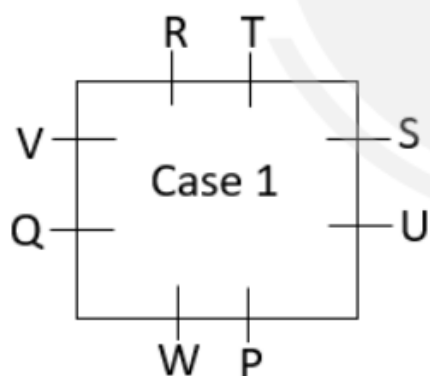

Only two persons sit between V and S.
W is not an immediate neighbour of S. From this condition Case 2 gets rejected, and we get,

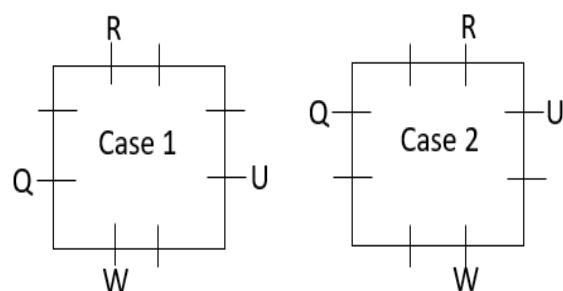

Hence, the position of R with respect to U is third to the right.

Q15 Text Solution:

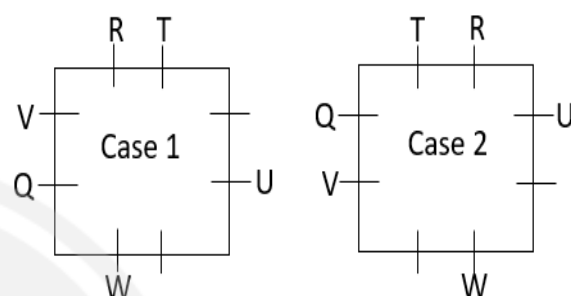

Final answer:

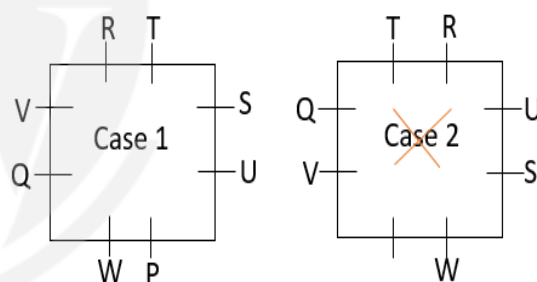

U sits second to the right of W. Q sits second to the right of R, who sits opposite W. From these conditions, we get,

The number of persons sits between R and Q is the same as the number of persons T and U. V sits second to the right of T.

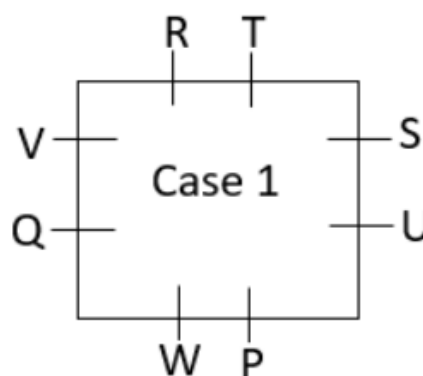

Only two persons sit between V and S.
W is not an immediate neighbour of S. From this condition Case 2 gets rejected, and we get,

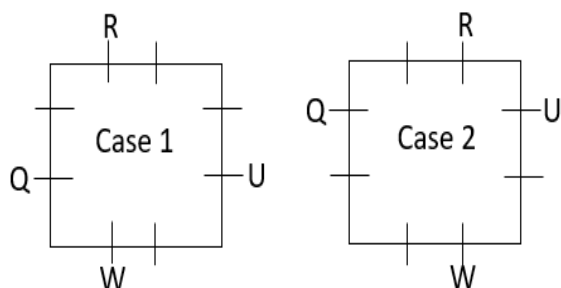

Hence, QU persons is sitting exactly opposite.

Q16 Text Solution:

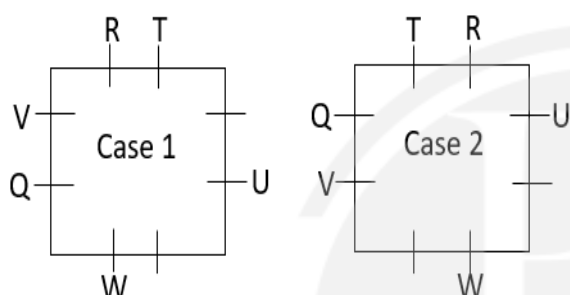

Final answer:

U sits second to the right of W. Q sits second to the right of R, who sits opposite W. From these conditions, we get,

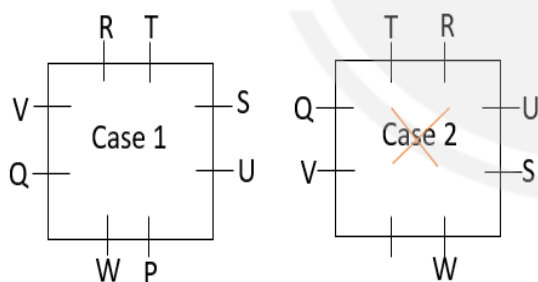

The number of persons sits between R and Q is the same as the number of persons T and U. V sits second to the right of T.

Only two persons sit between V and S.

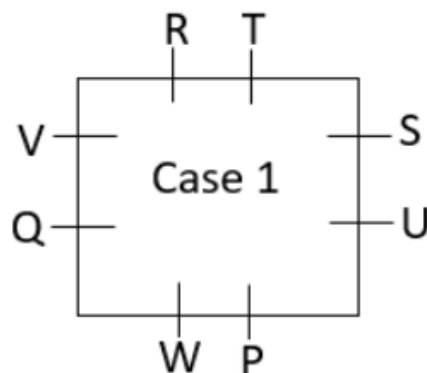

W is not an immediate neighbour of S. From this condition Case 2 gets rejected, and we get,

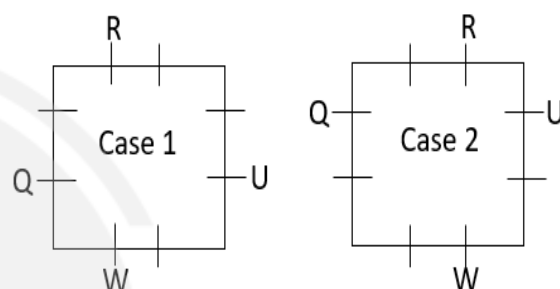

Hence, **TR pair of persons are immediate neighbours.**

Q17 Text Solution:

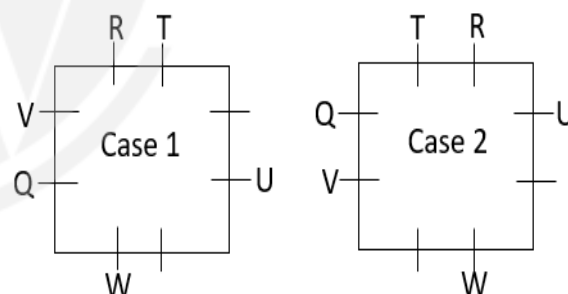

Final answer:

U sits second to the right of W. Q sits second to the right of R, who sits opposite W. From these conditions, we get,

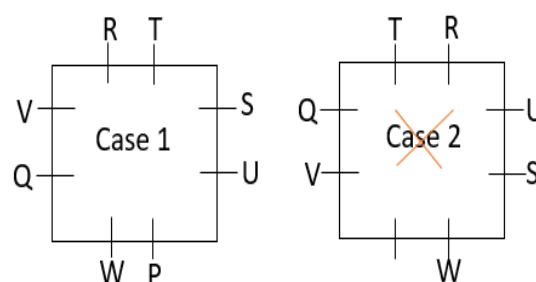

The number of persons sits between R and Q is the same as the number of persons T and U. V sits second to the right of T.

Only two persons sit between V and S.

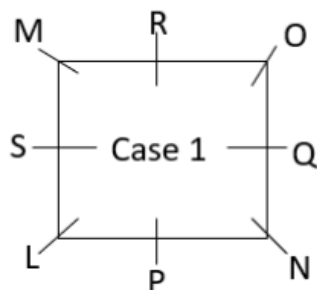

W is not an immediate neighbour of S. From this condition Case 2 gets rejected, and we get,

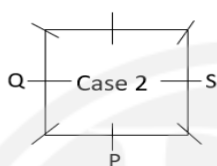

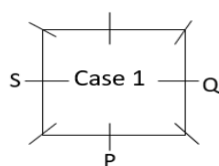

Hence, **Q sits second to the left of P.**

Q18 Text Solution:

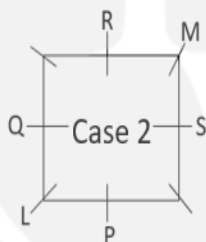

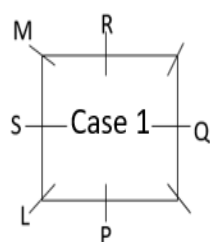

Final answer:

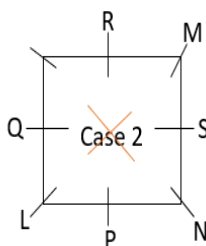

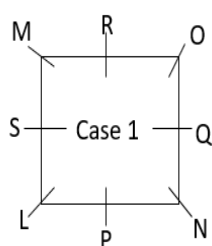

Only one person sits between Q and P who sits in the middle of the side. Three persons sit between S and Q. From these conditions, we get,

P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M, who do not sit adjacent to Q.

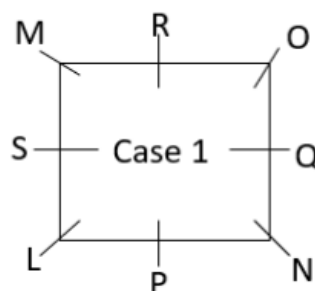

L sits opposite the one who is second to the right of N. O do not sit opposite N. From this condition Case 2 gets rejected, and we get,

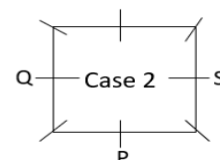

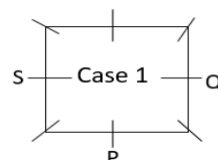

Hence, **S sits second to the left of N.**

Q19 Text Solution:

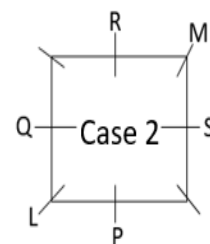

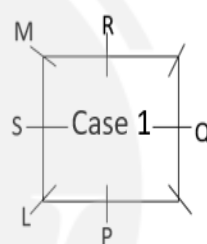

Final answer:

Only one person sits between Q and P, who sits in the middle of the side. Three persons sit between S and Q. From these conditions, we get,

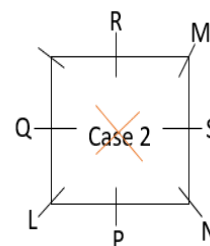

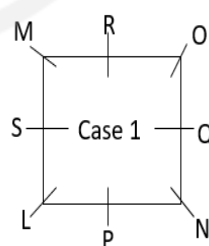

P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M, who do not sit adjacent to Q.

L sits opposite the one who is second to the right of N.

O do not sit opposite N. From this condition Case 2 gets rejected, and we get,

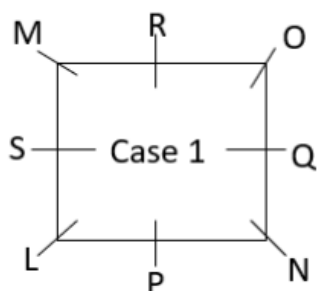

Hence, **three persons sit between L and O, when counted from the left of O.**

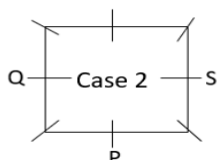

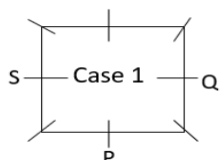

Q20 Text Solution:

Final answer:

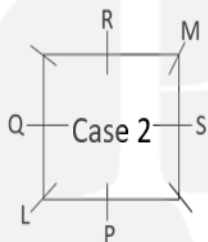

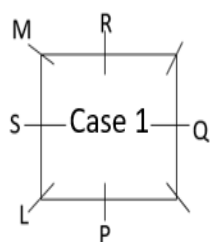

Only one person sits between Q and P, who sits in the middle of the side. Three persons sit between S and Q. From these conditions, we get,

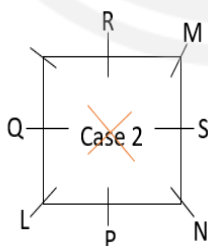

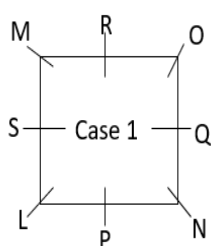

P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M, who do not sit adjacent to Q.

L sits opposite the one who is second to the right of N.

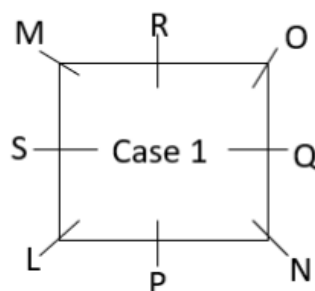

O do not sit opposite N. From this condition Case 2 gets rejected, and we get,

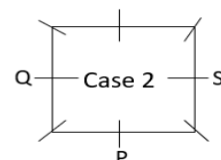

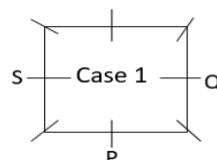

Hence, **Both S and L are immediate neighbours is true with respect to the final arrangement.**

Q21 Text Solution:

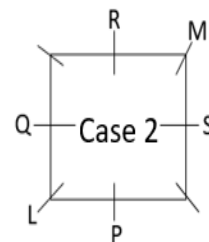

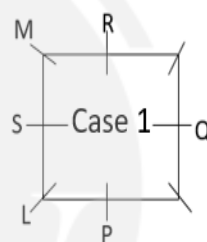

Final answer:

Only one person sits between Q and P, who sits in the middle of the side. Three persons sit between S and Q. From these conditions, we get,

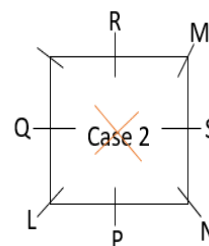

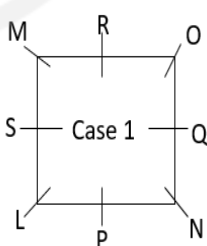

P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M, who do not sit adjacent to Q.

L sits opposite the one who is second to the right of N.

O do not sit opposite N. From this condition Case 2 gets rejected, and we get,

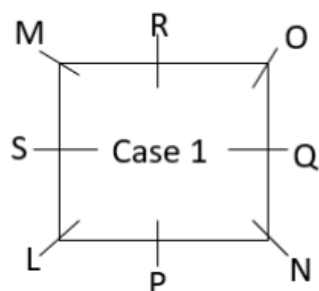

Hence, **N sits opposite to M.**

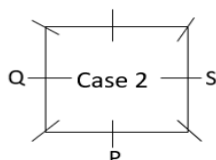

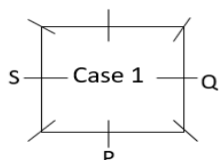

Q22 Text Solution:

Final answer:

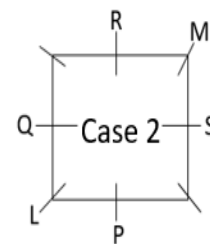

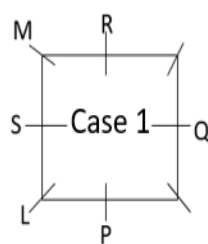

Only one person sits between Q and P, who sits in the middle of the side. Three persons sit between S and Q. From these conditions, we get,

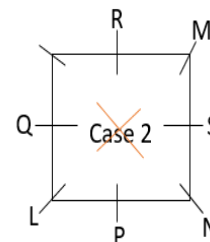

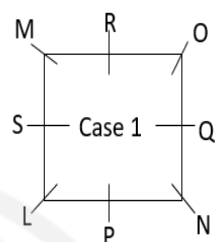

P sits immediately right of L. R sits two places away from Q. Only two persons sit between P and M, who do not sit adjacent to Q.

L sits opposite the one who is second to the right of N.

O do not sit opposite N. From this condition Case 2 gets rejected, and we get,

Hence, **position of S with respect to M is Immediate right.**
