## Syllogism

### Level-1

**Q1** In each question below are given three statements followed by two conclusions numbered I and II. You have to take the three given statements to be true even if they seem to be at variance with commonly known facts. Read the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

All Hill are Valley.

A few Valley are Dam.

All Dam are River.

**Conclusions:**

I. Some River are Hill .

II. No River is Hill

(A) Only conclusion I follow

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both conclusion I and conclusion II follows

**Q2** In each question below are given three statements followed by two conclusions numbered I and II. You have to take the three given statements to be true even if they seem to be at variance with commonly known facts. Read the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

All Iron are Copper

Some Copper are Mercury

All Aluminium are Mercury

**Conclusions:**

I. No Iron is Mercury

II. Some Copper are Aluminium

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both conclusion I and conclusion II follows

**Q3** In each question below are given three statements followed by two conclusions numbered I and II. You have to take the three given statements to be true even if they seem to be at variance with commonly known facts. Read the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

All Odour are Smell.

No Odour is Foul.

Some Foul are Fragrance.

**Conclusions:**

I. No Odour is Fragrance.

II. No Smell is Fragrance.

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both conclusion I and conclusion II follows

**Q4** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

All Pear are Apple.

No Apple is Litchi.

**Conclusions:**

I. No Litchi is Pear .

II. Some Litchi are not Apple.

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both conclusion I and conclusion II follow

**Q5** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

All Platform are Park.

All Park are Hangar.

Some Hangar are not Bus stand.

**Conclusions:**

I. Some Platform are not Bus stand.

II. All Platform are Hangar.

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both I and II follows

**Q6** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

All Quilt are Cot

All Cot are Pillow

No Cot is Sheet

**Conclusions:**

I. Some Pillow are Quilt

II. No Pillow is Sheet

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both conclusion I and conclusion II follows

**Q7** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

All Small are Tall.

Some Huge are Thin.

Some Thin are Tall.

No Tall is Huge

**Conclusions:**

I. Some Thin are Small.

II. No Huge are Small.

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both I and II follows

**Q8** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

No Cap is Hat.

All Hat are Helmet.

Some Helmet are Turban.

**Conclusions:**

I. No Helmet is Cap.

II. All Turban are Helmet.

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both conclusion I and conclusion II follows

**Q9** In each question below are given some statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read the statements and then decide which of the given conclusions logically follows from the

given statements, disregarding commonly known facts.

**Statements:**

No Curd is Butter.

Some Curd are Oil.

No Oil is Cream.

**Conclusions:**

I. No Cream is Butter.

II. Some Oil are not Butter.

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both conclusion I and conclusion II follow

**Q10** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

No Parrot is Sparrow.

Some Sparrow are Swan.

All Parrot are Bird.

**Conclusions:**

I. No Bird is Sparrow.

II. Some Bird are Parrot.

(A) Only conclusion I follows

(B) Only conclusion II follows

(C) Either conclusion I or conclusion II follows

(D) Neither conclusion I nor conclusion II follows

(E) Both I and II follows

**Q11** In each question below are given two statements followed by two conclusions

numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

No Rose is Jasmine.  
All Jasmine are Lotus.  
A few Lotus are Marigold.

**Conclusions:**

- I. All Marigold are Jasmine.
- II. Some Marigold are not Jasmine.
- (A) Only conclusion I follow
- (B) Only conclusion II follows
- (C) Either conclusion I or conclusion II follows
- (D) Neither conclusion I nor conclusion II follows
- (E) Both conclusion I and conclusion II follows

**Q12** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

No Sweet is Cake.  
No Cake is Pastry.  
Only Pastry are Bread.

**Conclusions:**

- I. No Sweet is Bread.
- II. No Pastry is Sweet.
- (A) Only conclusion I follow
- (B) Only conclusion II follows
- (C) Either conclusion I or conclusion II follows

- (D) Neither conclusion I nor conclusion II follows
- (E) Both conclusion I and conclusion II follows

**Q13** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

Some Architect are Engineer  
All Engineer are Mechanic  
All Mechanic are Blacksmith

**Conclusions:**

- I. All Engineer are Blacksmith
- II. Some Blacksmith are Architect
- (A) Only conclusion I follows
- (B) Only conclusion II follows
- (C) Either conclusion I or conclusion II follows
- (D) Neither conclusion I nor conclusion II follows
- (E) Both I and II follows

**Q14** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

**Statements:**

Some Bear are Tiger  
All Bear are Leopard  
Some Tiger are Cheetah

**Conclusions:**

- I. Some Cheetah are Leopard  
II. No Bear are Cheetah  
(A) Only conclusion I follows  
(B) Only conclusion II follows  
(C) Either conclusion I or conclusion II follows  
(D) Neither conclusion I nor conclusion II follows  
(E) Both conclusion I and conclusion II follows

**Q15** In each question below are given two statements followed by two conclusions numbered I and II. You have to take the two given statements to be true even if they seem to be at variance with commonly known facts. Read both the statements and then decide which of the given conclusions logically follows

from the given statements, disregarding commonly known facts.

**Statements:**

Some Knife are Hammer.

No Hammer is Blade.

**Conclusions:**

I. Some Knife are not Blade.

II. Some Blade are not Hammer.

- (A) Only conclusion I follows  
(B) Only conclusion II follows  
(C) Either conclusion I or conclusion II follows  
(D) Neither conclusion I nor conclusion II follows  
(E) Both conclusion I and conclusion II follow

## Hints & Solutions

### Q1 Text Solution:

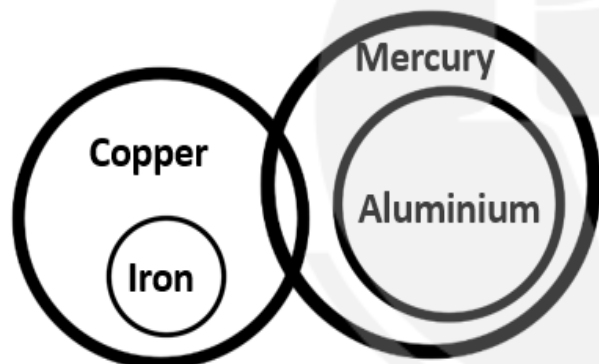

Conclusion 1: It does not follow. There are no direct relation given between River and Hill so, Some River are Hill does not follow.

Conclusion 2: It does not follow. There are no direct relation given between River and Hill so, No River is Hill does not follow.

But here either or case occurs.

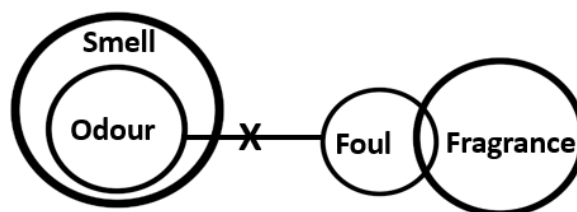

### Q2 Text Solution:

Conclusion 1: It does not follow. There is no direct relation between Iron and Mercury so No Iron is Mercury does not follow.

Conclusion 2: It does not follow. There is no direct relation between Copper and Aluminium so Some Copper are Aluminium does not follow.

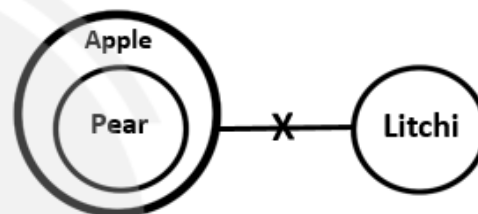

### Q3 Text Solution:

Conclusion 1: It does not follow. There is no direct relation between Odour and Fragrance so No Odour is Fragrance does not follow.

Conclusion 2: It does not follow. There is no direct relation between Smell and Fragrance so No Smell is Fragrance does not follow.

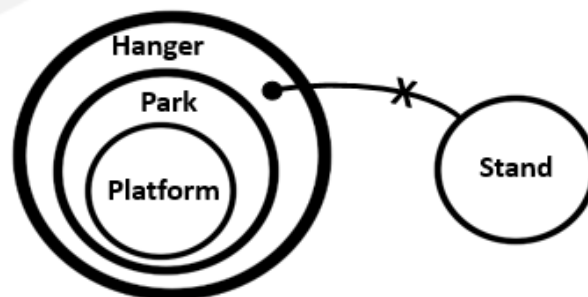

### Q4 Text Solution:

Conclusion 1: It is follow. All Pear is covered by Apple and No Apple is Litchi is given so No Litchi is Pear is definite follow.

Conclusion 2: It is follow. No Apple is Litchi is given so Some Litchi are not Apple is definite follow.

### Q5 Text Solution:

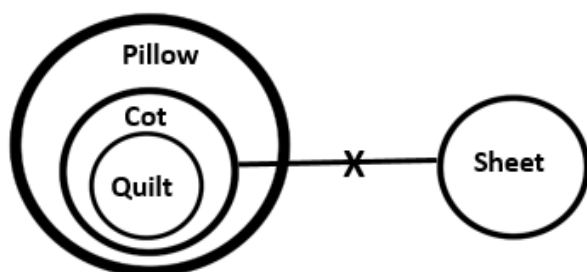

Conclusion 1: It does not follow. There is no direct relation between Platform and Bus Stand so, Some platform are not Bus Stand does not follow.

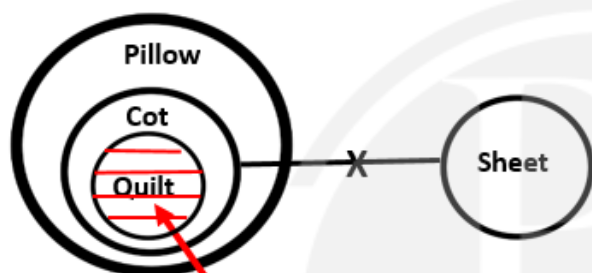

Conclusion 2: It is follow. All Platform is cover by Hanger so, All Platform are Hanger it is definite follow.

**Q6 Text Solution:**

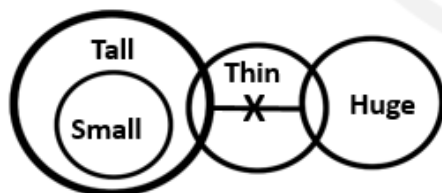

Conclusion 1: It is follow. All Quilt are covered by Pillow, so Some Pillow are Quilt is follows.

**This part of Quilt touches Pillow**

Conclusion 2: It does not follow. There are no direct relation given between pillow and Sheet so, No Pillow is sheet does not follow.

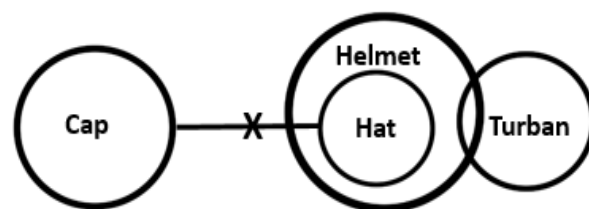

**Q7 Text Solution:**

Conclusion 1: It does not follow. There is no direct relation between Thin and Small so Some Thin are Small does not follow.

Conclusion 2: It is follow. All Small are Tall is given and No Tall is Huge also given so No Huge is Tall definite follow.

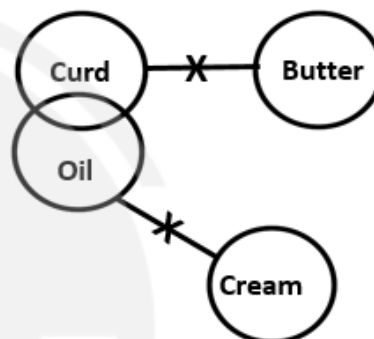

**Q8 Text Solution:**

Conclusion 1: It does not follow. There is no direct relation between Helmet and Cap so No Helmet is Cap does not follow.

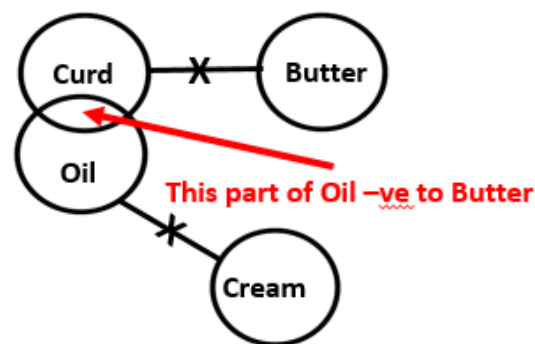

Conclusion 2: It does not follow. There are some part of Turban is touches Helmet so, All Turban are Helmet does not follow.

**Q9 Text Solution:**

Conclusion 1: It does not follow. There is no direct relation between Cream and Butter so No Cream is Butter does not follow.

Conclusion 2: It is follow. Some part of Oil touches Curd and No Curd is Butter is given so, Some Oil are not Butter is follow.

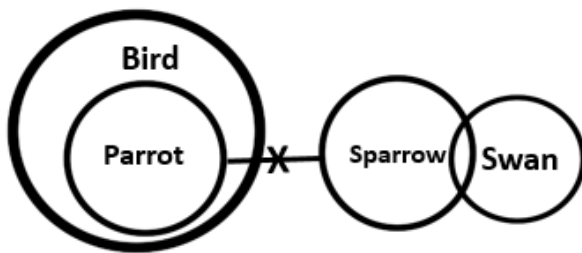

**This part of Oil -ve to Butter**

**Q10 Text Solution:**

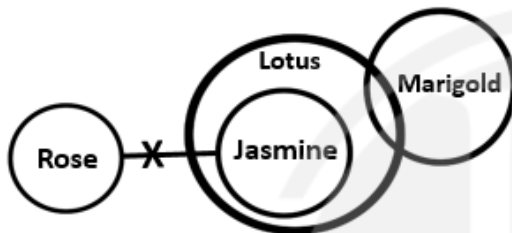

Conclusion 1: It does not follow. There is no direct relation between Bird and Sparrow so No Bird is Sparrow does not follow.

Conclusion 2: It is follow. All Parrot are Bird is given so Some Bird are Parrot is definite follow.

**Q11 Text Solution:**

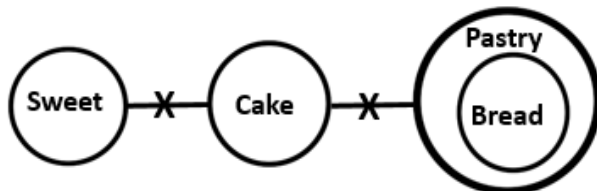

Conclusion 1: It does not follow. There are no direct relation given between Marigold and Jasmine so, All Marigold are Jasmine does not follow.

Conclusion 2: It does not follow. There are no direct relation given between Marigold and Jasmine so, Some Marigold are not Jasmine does not follow.

But here either or case occurs.

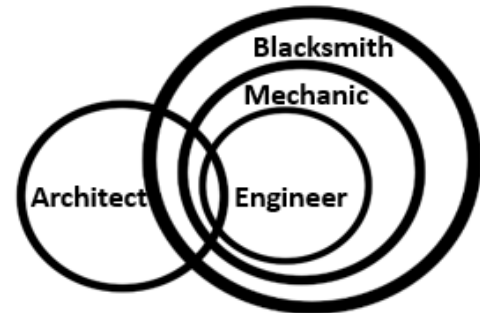

**Q12 Text Solution:**

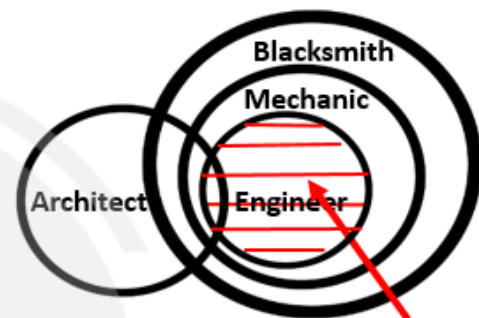

Conclusion 1: It is follow. No Sweet is Bread is a definite follow.

Conclusion 2: It does not follow. There is no direct relation between Sweet and Pastry so, No Pastry is Sweet does not follow.

**Q13 Text Solution:**

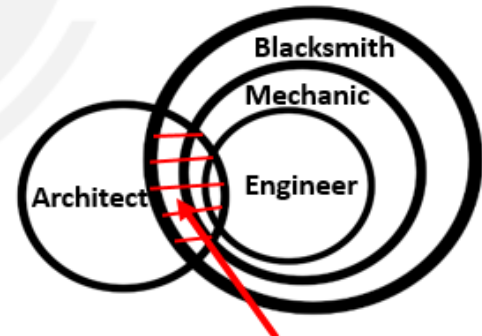

Conclusion 1: It is follow. All Engineer are cover by Blacksmith so, All Engineer are Blacksmith is follow.

**All Eng. Are Blacksmith**

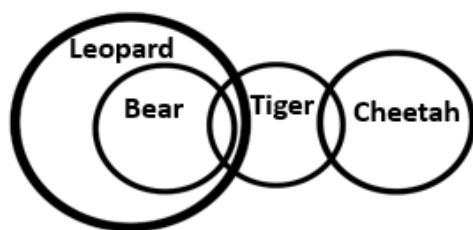

Conclusion 2: It is follow. Some part of Blacksmith is touches Architect so, Some Blacksmith are Architect is follow.

**This part of Blacksmith touches Architect**

**Q14 Text Solution:**

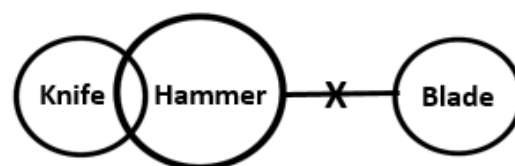

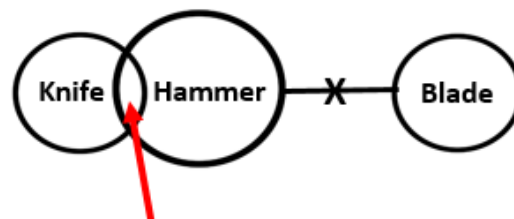

Conclusion 1: It does not follow. There is no direct relation between Leopard and Cheetah so Some Cheetah is Leopard does not follow.

Conclusion 2: It does not follow. There is no direct relation between Bear and Cheetah so No Bear is Cheetah does not follow.

**Q15 Text Solution:**

Conclusion 1: It is follow. Some part of Knife is touches Hammer and No Hammer is Blade given so Some Knife are not Blade is definite follow.

**This part of Knife is -ve to Blade**

Conclusion 2: It is follow. No Hammer is Blade is given so Some Blade are not Hammer is definite follow.
