Tabular Puzzle

Level-1

Q1 Study the following information carefully and answer the questions accordingly.

There are eight boxes namely i.e. P, B, R, G, W, Y, M and O. They are placed one above the other and contains different colour balls i.e. Black, White, Red, Lime, Blue, Yellow, Cyan, Magenta, Silver, Gray, Maroon, Olive, Green, Purple, Teal and Navy such that each box contains two balls but not necessarily in the same order.

Black balls are in W and it cannot be in the same box with Teal colour balls and Navy colour balls. Lime colour balls and Purple colour balls are in the box R. There are exactly four boxes between box Y and box P such that box Y is above the box P and box P contains Gray colour balls and Green colour balls. Box O is immediately below the box B. Silver colour balls and Maroon colour balls are in the box which is third from the top. Box G contains White colour balls and Red colour balls. Cyan colour box and Magenta colour balls is immediately above the box which contains Yellow colour balls and Orange colour balls respectively and both these boxes are above the 5th box from the top. The box W is placed 4th from the top. The box M and box R are at the bottom most and fourth from the bottom respectively.

Which of the following statements is true with respect to the given information?

(A) Box Y contains orange colour balls

(B) Box R is immediately above box G.

(C) Box O has silver colour balls.

(D) Box M and P has three boxes in between them.

(E) None of these

Q2 Study the following information carefully and answer the questions accordingly.

There are eight boxes namely i.e. P, B, R, G, W, Y, M and O. They are placed one above the other and contains different colour balls i.e. Black, White, Red, Lime, Blue, Yellow, Cyan, Magenta, Silver, Gray, Maroon, Olive, Green, Purple, Teal and Navy such that each box contains two balls but not necessarily in the same order.

Black balls are in W and it cannot be in the same box with Teal colour balls and Navy colour balls. Lime colour balls and Purple colour balls are in the box R. There are exactly four boxes between box Y and box P such that box Y is above the box P and box P contains Gray colour balls and Green colour balls. Box O is immediately below the box B. Silver colour balls and Maroon colour balls are in the box which is third from the top. Box G contains White colour balls and Red colour balls. Cyan colour box and Magenta colour balls is immediately above the box which contains Yellow colour balls and Orange colour balls respectively and both these boxes are above the 5th box from the top. The box W is placed 4th from the top. The box M and

box R are at the bottom most and fourth from the bottom respectively.

Four of the following are alike in certain way and so form a group. Which one of the following does not belong to the group?

- (A) G- red (B) R- Purple
(C) G- Gray (D) B- Orange
(E) None of these

Q3 Study the following information carefully and answer the questions accordingly.

There are eight boxes namely i.e. P, B, R, G, W, Y, M and O. They are placed one above the other and contains different colour balls i.e. Black, White, Red, Lime, Blue, Yellow, Cyan, Magenta, Silver, Gray, Maroon, Olive, Green, Purple, Teal and Navy such that each box contains two balls but not necessarily in the same order.

Black balls are in W and it cannot be in the same box with Teal colour balls and Navy colour balls. Lime colour balls and Purple colour balls are in the box R. There are exactly four boxes between box Y and box P such that box Y is above the box P and box P contains Gray colour balls and Green colour balls. Box O is immediately below the box B. Silver colour balls and Maroon colour balls are in the box which is third from the top. Box G contains White colour balls and Red colour balls. Cyan colour box and Magenta colour balls is immediately above the box which contains Yellow colour balls and Orange colour balls respectively and both these boxes are above the 5th box from the top. The box W is placed 4th from the top. The box M and box R are at the bottom most and fourth from the bottom respectively.

Which box is between the box B and the box that contains Navy colour balls?

- (A) P (B) W
(C) R (D) O
(E) None of these

Q4 Study the following information carefully and answer the questions accordingly.

There are eight boxes namely i.e. P, B, R, G, W, Y, M and O. They are placed one above the other and contains different colour balls i.e. Black, White, Red, Lime, Blue, Yellow, Cyan, Magenta, Silver, Gray, Maroon, Olive, Green, Purple, Teal and Navy such that each box contains two balls but not necessarily in the same order.

Black balls are in W and it cannot be in the same box with Teal colour balls and Navy colour balls. Lime colour balls and Purple colour balls are in the box R. There are exactly four boxes between box Y and box P such that box Y is above the box P and box P contains Gray colour balls and Green colour balls. Box O is immediately below the box B. Silver colour balls and Maroon colour balls are in the box which is third from the top. Box G contains White colour balls and Red colour balls. Cyan colour box and Magenta colour balls is immediately above the box which contains Yellow colour balls and Orange colour balls respectively and both these boxes are above the 5th box from the top. The box W is placed 4th from the top. The box M and box R are at the bottom most and fourth from the bottom respectively.

Which box is sixth from the top?

- (A) B (B) O
(C) P (D) W
(E) M

Q5 Study the following information carefully and answer the questions accordingly.

First 10 numbers are written from Top to Bottom. The word 'HORSE' is written in alphabetical order against each multiple of 2 (One letter against one number) from bottom to top. Position of V is exactly between E and H. There are as many letters between V and P as between V and W. F is placed exactly above R and Y is exactly between R and S. Position of P is not equal to 5.

Who is in between O and R?

- (A) H (B) S
(C) F (D) E
(E) None of these

Q6 Study the following information carefully and answer the questions accordingly.

First 10 numbers are written from Top to Bottom. The word 'HORSE' is written in alphabetical order against each multiple of 2 (One letter against one number) from bottom to top. Position of V is exactly between E and H. There are as many letters between V and P as between V and W. F is placed exactly above R and Y is exactly between R and S. Position of P is not equal to 5.

Which alphabet is written against number 9?

- (A) H (B) S
(C) Y (D) E
(E) None of these

Q7 Study the following information carefully and answer the questions accordingly.

First 10 numbers are written from Top to Bottom. The word 'HORSE' is written in alphabetical order against each multiple of 2 (One letter against one

number) from bottom to top. Position of V is exactly between E and H. There are as many letters between V and P as between V and W. F is placed exactly above R and Y is exactly between R and S. Position of P is not equal to 5.

Which is the third letter in the word formed by the letters against 10, 4, 6 and 2 in the same order?

- (A) H (B) S
(C) O (D) E
(E) None of these

Q8 Study the following information carefully and answer the questions accordingly.

First 13 even numbers are written from top to bottom. The letter of word "ADVENT" are written in the same order against each multiple of 4 (one letter against one number) from top to bottom. There are two even numbers between A and L. There are three letters between W and L. No letters between Y and T. J is above L but below P. V is immediately above O. Y is not below T.

Find odd one out ?

- (A) P, L (B) D, E
(C) V, N (D) O, W
(E) E, T

Q9 Study the following information carefully and answer the questions accordingly.

First 13 even numbers are written from top to bottom. The letter of word "ADVENT" are written in the same order against each multiple of 4 (one letter against one number) from top to bottom. There are two even numbers between A and L. There are three letters between W and L. No

letters between Y and T. J is above L but below P.
V is immediately above O. Y is not below T.

How many letters between T and D ?

- (A) 13 (B) 7
(C) 11 (D) 12
(E) None of these

Q10 Study the following information carefully and answer the questions accordingly.

First 13 even numbers are written from top to bottom. The letter of word “ADVENT” are written in the same order against each multiple of 4 (one letter against one number) from top to bottom. There are two even numbers between A and L. There are three letters between W and L. No letters between Y and T. J is above L but below P. V is immediately above O. Y is not below T.

If all the letters are arranged in reverse alphabetical order from top to bottom then how many letters written between J and W ?

- (A) 8 (B) 10
(C) 6 (D) 11
(E) None of these

Q11 Study the following information carefully and answer the questions accordingly.

First 13 even numbers are written from top to bottom. The letter of word “ADVENT” are written in the same order against each multiple of 4 (one letter against one number) from top to bottom. There are two even numbers between A and L. There are three letters between W and L. No letters between Y and T. J is above L but below P. V is immediately above O. Y is not below T.

Who among the following letter is three places above N?

- (A) O (B) A
(C) D (D) W
(E) None of these

Q12 Study the following information carefully and answer the questions accordingly.

First 13 numbers starting from 1 are written from top to bottom. The word "BRIDGES" is written in alphabetical order against each odd number from top to bottom. Two letters are between D and M. The number of letters written between X and E is 0. The number of letters written between X and M is the same as M and U. The position value of Z is 10. There is no letter between B and K.

How many forward and backward pairs of letters are there in a word formed by the positions 1, 9, 11 and 3 respectively in that order and have as many letters between them in the word as in the alphabetical series?

- (A) 4 (B) 5
(C) 0 (D) 8
(E) 7

Q13 Study the following information carefully and answer the questions accordingly.

First 13 numbers starting from 1 are written from top to bottom. The word "BRIDGES" is written in alphabetical order against each odd number from top to bottom. Two letters are between D and M. The number of letters written between X and E is 0. The number of letters written between X and M is the same as M and U. The position value of Z is 10. There is no letter between B and K.

Which letters are placed between 5 and 8 ?

- (A) M and G (B) L and G
(C) D and M (D) R and E
(E) I and S

Q14 Study the following information carefully and answer the questions accordingly.

First 15 natural numbers are written from top to Bottom. The letters of the word “LOBSTER” are written in the alphabetical order against each multiple of 2 (one letter against one number) from top to bottom. M is placed exactly between T and S. H is placed exactly between L and O. No letters are between A and B. The number of letters between M and Q is the same as between L and O. Letter Y is Placed exactly above the letter R. The number of letters between Q and Y is the same as the number of letters between M and Q. Number of letters between A and H is the same as the number of letters between H and M.

How many letters between L and R?

- (A) 4 (B) 5
(C) 3 (D) 7
(E) None of these

Q15 Study the following information carefully and answer the questions accordingly.

First 15 natural numbers are written from top to Bottom. The letters of the word “LOBSTER” are written in the alphabetical order against each multiple of 2 (one letter against one number) from top to bottom. M is placed exactly between T and S. H is placed exactly between L and O. No letters are between A and B. The number of letters between M and Q is the same as between L and O. Letter Y is Placed exactly above the

letter R. The number of letters between Q and Y is the same as the number of letters between M and Q. Number of letters between A and H is the same as the number of letters between H and M.

What is the total sum of the number against letter A, B and E according to the arrangement formed ?

- (A) 4 (B) 5
(C) 7 (D) 9
(E) None of these

Q16 Study the following information carefully and answer the questions accordingly.

First 17 prime numbers are written from top to bottom. The letter of the word “NOTCHING” are written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

M is placed against highest prime number. Only three letters are placed between M and Q. Only one letter is placed between V and Q. R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which is not placed below 5. Y is below X but above U. R neither placed against 47 nor placed at the least prime number. U is not placed against third highest prime number. V is not adjacent to H.

Which of the following letter is placed immediately above G ?

- (A) V (B) U
(C) Q (D) P
(E) None of these

Q17 Study the following information carefully and answer the questions accordingly.

First 17 prime numbers are written from top to bottom. The letter of the word “NOTCHING” are

written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

M is placed against highest prime number. Only three letters are placed between M and Q. Only one letter is placed between V and Q. R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which is not placed below 5. Y is below X but above U. R neither placed against 47 nor placed at the least prime number. U is not placed against third highest prime number. V is not adjacent to H.

How many letters are placed between R and V?

- (A) 5 (B) 8
(C) 9 (D) 7
(E) None of these

Q18 Study the following information carefully and answer the questions accordingly.

First 17 prime numbers are written from top to bottom. The letter of the word “**NOTCHING**” are written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

M is placed against highest prime number. Only three letters are placed between M and Q. Only one letter is placed between V and Q. R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which is not placed below 5. Y is below X but above U. R neither placed against 47 nor placed at the least prime number. U is not placed against third highest prime number. V is not adjacent to H.

As many letters are placed above Q is same as below _____?

- (A) Y (B) X

- (C) P (D) R
(E) None of these

Q19 Study the following information carefully and answer the questions accordingly.

First 17 prime numbers are written from top to bottom. The letter of the word “**NOTCHING**” are written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

M is placed against highest prime number. Only three letters are placed between M and Q. Only one letter is placed between V and Q. R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which is not placed below 5. Y is below X but above U. R neither placed against 47 nor placed at the least prime number. U is not placed against third highest prime number. V is not adjacent to H.

Which of the following letter is placed against 5th highest prime number ?

- (A) X (B) Y
(C) Q (D) R
(E) None of these

Q20 Study the following information carefully and answer the questions accordingly.

First 18 even numbers are written from top to bottom. The letter of the word “**INCHOATE**” are written in the same order against alternative even numbers (one letter against one number) from top to bottom starting from 4.

B is placed against at highest even number. Only four letters are placed between B and D. Only three letter are placed between M and D. Only five letters are placed between P and Q which is not placed below 18. P is not placed below Q. G is not placed adjacent to H and T. M is not placed

adjacent to T and A. G is placed above D but below Q. Only one letter are placed between G and J. Only three letters are placed between F and J. K is not placed below F and Q. One of the letter is L.

As many letter are between P and Q is same as between _____?

- (A) Q and F (B) J and G
(C) D and M (D) M and G
(E) None of these

Q21 Study the following information carefully and answer the questions accordingly.

First 18 even numbers are written from top to bottom. The letter of the word “INCHOATE” are written in the same order against alternative even numbers (one letter against one number) from top to bottom starting from 4.

B is placed against at highest even number. Only four letters are placed between B and D. Only three letter are placed between M and D. Only five letters are placed between P and Q which is not placed below 18. P is not placed below Q. G is not placed adjacent to H and T. M is not placed adjacent to T and A. G is placed above D but below Q. Only one letter are placed between G and J. Only three letters are placed between F and J. K is not placed below F and Q. One of the letter is L.

How many letters are placed below F ?

- (A) 13 (B) 15
(C) 11 (D) 17
(E) None of these

Q22 Study the following information carefully and answer the questions accordingly.

There are eight boxes namely i.e. P, B, R, G, W, Y, M and O. They are placed one above the other and contains different colour balls i.e. Black, White, Red, Lime, Blue, Yellow, Cyan, Magenta, Silver, Gray, Maroon, Olive, Green, Purple, Teal and Navy such that each box contains two balls but not necessarily in the same order.

Black balls are in W and it cannot be in the same box with Teal colour balls and Navy colour balls. Lime colour balls and Purple colour balls are in the box R. There are exactly four boxes between box Y and box P such that box Y is above the box P and box P contains Gray colour balls and Green colour balls. Box O is immediately below the box B. Silver colour balls and Maroon colour balls are in the box which is third from the top. Box G contains White colour balls and Red colour balls. Cyan colour box and Magenta colour balls is immediately above the box which contains Yellow colour balls and Orange colour balls respectively and both these boxes are above the 5th box from the top. The box W is placed 4th from the top. The box M and box R are at the bottom most and fourth from the bottom respectively.

How many boxes are placed between the box O and the box that contains teal colour balls?

- (A) Two
(B) One
(C) More than three
(D) Three
(E) None of these

Hints & Solutions

Q1 Text Solution:

We have,

1. The box W is placed 4th from the top.
2. The box M and box R are at the bottom most and fourth from the bottom respectively.
3. Lime colour balls and Purple colour balls are in the box R.
4. Silver colour balls and Maroon colour balls are in the box which is third from the top.
5. Cyan colour box and Magenta colour balls is immediately above the box which contains Yellow colour balls and Orange colour balls respectively and both these boxes are above the 5th box from the top.

Q5 Text Solution:

First 10 numbers are written from Top to Bottom. The word 'HORSE' is written in alphabetical order against each multiple of 2 (One letter against one number) from bottom to top.

1	
2	E
3	
4	H
5	
6	O

7	
8	R
9	
10	S

There are 1 letter between E and H and that letter is V. There are as many letters between V and P as between V and W. There are 3 letters between E and O. V is against number 3. F is placed exactly above R and Y is exactly between R and S.

(position of p is not equal to 5 is fixed by the statement)

1	P
2	E
3	V
4	H
5	W
6	O
7	F
8	R
9	Y
10	S

F is sitting between O and R.

Q6 Text Solution:

First 10 numbers are written from Top to Bottom. The word 'HORSE' is written in alphabetical order against each multiple of 2 (One letter against one number) from bottom to top.

1

9	Y
10	S

The word formed by the placed value 10,4,6,2 is SHOE and the third letter of the word SHOE is O.

Q8 Text Solution:

From:- First 13 even numbers are written from top to bottom. The letter of word "ADVENT" are written in the same order against each multiple of 4 (one letter against one number) from top to bottom.

Numbers	Letters
2	
4	A
6	
8	D
10	
12	V
14	
16	E

18	
20	N
22	
24	T
26	

From:- There are two even numbers between A and L. There are three letters between W and L.

Numbers	Case-1	Case-2
2		W
4	A	A
6		
8	D	D
10	L	L
12	V	V
14		
16	E	E
18	W	
20	N	N
22		
24	T	T
26		

From:- No letters between Y and T. J is above L but below P. V is immediately above O. Y is not below T.

Numbers	Case-1	Case-2
2	P	W
4	A	A
6	J	J
8	D	D
10	L	L
12	V	V
14	O	
16	E	E
18	W	
20	N	N

22	Y	
24	T	T
26		

From above the conditions case-2 get eliminated and case-1 is the final arrangement.

10	L
12	V
14	O
16	E
18	W
20	N
22	Y
24	T
26	

Here is the final arrangement.

Q9 Text Solution:

From:- First 13 even numbers are written from top to bottom. The letter of word “ADVENT” are written in the same order against each multiple of 4 (one letter against one number) from top to bottom.

Numbers	Letters
2	
4	A
6	
8	D
10	
12	V
14	
16	E

18	
20	N
22	
24	T
26	

From:- There are two even numbers between A and L. There are three letters between W and L.

Numbers	Case-1	Case-2
2		W
4	A	A
6		
8	D	D
10	L	L
12	V	V
14		
16	E	E
18	W	
20	N	N
22		
24	T	T
26		

From:- No letters between Y and T. J is above L but below P. V is immediately above O. Y is not below T.

Numbers	Case-1	Case-2
2	P	W
4	A	A
6	J	J
8	D	D
10	L	L
12	V	V
14	O	
16	E	E
18	W	
20	N	N

22	Y	
24	T	T
26		

From above the conditions case-2 get eliminated and case-1 is the final arrangement.

Numbers	Letters
2	P
4	A
6	J
8	D
10	L
12	V
14	O
16	E
18	W
20	N
22	Y
24	T
26	

Here is the final arrangement.

Q10 Text Solution:

From:- First 13 even numbers are written from top to bottom. The letter of word “ADVENT” are written in the same order against each multiple of 4 (one letter against one number) from top to bottom.

Numbers	Letters
2	
4	A
6	
8	D
10	
12	V
14	
16	E

18	
20	N
22	
24	T
26	

From:- There are two even numbers between A and L. There are three letters between W and L.

Numbers	Case-1	Case-2
2		W
4	A	A
6		
8	D	D
10	L	L
12	V	V
14		
16	E	E
18	W	
20	N	N
22		
24	T	T
26		

From:- No letters between Y and T. J is above L but below P. V is immediately above O. Y is not below T.

Numbers	Case-1	Case-2
2	P	W
4	A	A
6	J	J
8	D	D
10	L	L
12	V	V
14	O	
16	E	E
18	W	
20	N	N

22	Y	
24	T	T
26		

From above the conditions case-2 get eliminated and case-1 is the final arrangement.

Numbers	Letters
2	P
4	A
6	J
8	D
10	L
12	V
14	O
16	E
18	W
20	N
22	Y
24	T
26	

Here is the final arrangement.

Q11 Text Solution:

From:- First 13 even numbers are written from top to bottom. The letter of word “ADVENT” are written in the same order against each multiple of 4 (one letter against one number) from top to bottom.

Numbers	Letters
2	
4	A
6	
8	D
10	
12	V
14	
16	E

18	
20	N
22	
24	T
26	

From:- There are two even numbers between A and L. There are three letters between W and L.

Numbers	Case-1	Case-2
2		W
4	A	A
6		
8	D	D
10	L	L
12	V	V
14		
16	E	E
18	W	
20	N	N
22		
24	T	T
26		

From:- No letters between Y and T. J is above L but below P. V is immediately above O. Y is not below T.

Numbers	Case-1	Case-2
2	P	W
4	A	A
6	J	J
8	D	D
10	L	L
12	V	V
14	O	
16	E	E
18	W	
20	N	N

22	Y	
24	T	T
26		

From above the conditions case-2 get eliminated and case-1 is the final arrangement.

Numbers	Letters
2	P
4	A
6	J
8	D
10	L
12	V
14	O
16	E
18	W
20	N
22	Y
24	T
26	

Here is the final arrangement.

Q12 Text Solution:

First 13 numbers starting from 1 are written from top to bottom. The word "BRIDGES" is written in alphabetical order against each odd number from top to bottom.

1	B
2	
3	D
4	
5	E
6	
7	G
8	
9	I
10	

11	R
12	
13	S

Two letters are between D and M.

The number of letters written between X and E is 0.

The number of letters written between X and M is the same as M and U.

X is written above E and X is between D and E.

The placed value of Z is 10.

There is no letter between B and K.

1	B
2	K
3	D
4	X
5	E
6	M
7	G
8	U
9	I
10	Z
11	R
12	
13	S

The word is BIRD and there is no forward and backward pair formed.

Q13 Text Solution:

First 13 numbers starting from 1 are written from top to bottom. The word "BRIDGES" is written in alphabetical order against each odd number from top to bottom.

1	B
2	
3	D
4	
5	E

6	
7	G
8	
9	I
10	
11	R
12	
13	S

Two letters are between D and M.

The number of letters written between X and E is 0.

The number of letters written between X and M is the same as M and U.

X is written above E and X is between D and E.

The placed value of Z is 10.

There is no letter between B and K.

1	B
2	K
3	D
4	X
5	E
6	M
7	G
8	U
9	I
10	Z
11	R
12	
13	S

The letters placed between 5 and 8 are G and M.

Q14 Text Solution:

First 15 natural numbers are written from top to bottom. The letters of the word "LOBSTER" are written in the alphabetical order against each multiple of 2 (one letter against one number) from top to bottom.

1	
2	B
3	
4	E
5	
6	L
7	
8	O
9	
10	R
11	
12	S
13	
14	T
15	

M is placed exactly between T and S.

H is placed exactly between L and O.

No letters are between A and B.

The number of letters between M and Q is the same as between L and O.

Letter Y is placed exactly above the letter R.

The number of letters between Q and Y is the same as the number of letters between M and Q.

Number of letters between A and H is the same as the number of letters between H and M.

1	A
2	B
3	
4	E
5	
6	L
7	H
8	O
9	Y
10	R

11	Q
12	S
13	M
14	T
15	

There are a total of 3 letters are between L and R.

Q15 Text Solution:

First 15 natural numbers are written from top to Bottom. The letters of the word "LOBSTER" are written in the alphabetical order against each multiple of 2 (one letter against one number) from top to bottom.

1	
2	B
3	
4	E
5	
6	L
7	
8	O
9	
10	R
11	
12	S
13	
14	T
15	

M is placed exactly between T and S.

H is placed exactly between L and O.

No letters are between A and B.

The number of letters between M and Q is the same as between L and O.

Letter Y is placed exactly above the letter R.

The number of letters between Q and Y is the same as the number of letters between M and Q. Number of letters between A and H is the same as the number of letters between H and M.

1	A
2	B
3	
4	E
5	
6	L
7	H
8	O
9	Y
10	R
11	Q
12	S
13	M
14	T
15	

Q16 Text Solution:

From:- First 17 prime numbers are written from top to bottom. The letter of the word “**NOTCHING**” are written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

Numbers	Letters
2	
3	N
5	
7	O
11	
13	T
17	
19	C

23	
29	H
31	
37	I
41	
43	N
47	
53	G
59	

From:- M is placed against highest prime number. Only three letters are placed between M and Q. Only one letter is placed between V and Q.

Numbers	Case-1	Case-2
2		
3	N	N
5		
7	O	O
11		
13	T	T
17		
19	C	C
23		
29	H	H
31		V
37	I	I
41	Q	Q
43	N	N
47	V	
53	G	G
59	M	M

From:- R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which

is not placed below 5. Y is below X but above U.
R neither placed against 47 nor placed at the least prime number.

Numbers	Case-1	Case-2
2	W	W
3	N	N
5	R	R
7	O	O
11	X	X
13	T	T
17	Y	Y
19	C	C
23	P	P
29	H	H
31	U	V
37	I	I
41	Q	Q
43	N	N
47	V	U
53	G	G
59	M	M

From:- U is not placed against third highest prime number. V is not adjacent to H.

From above the conditions Case-2 get eliminated and case-1 is the final arrangement.

Numbers	Letters
2	W
3	N
5	R
7	O
11	X
13	T
17	Y

19	C
23	P
29	H
31	U
37	I
41	Q
43	N
47	V
53	G
59	M

Hence this is the final arrangement.

Q17 Text Solution:

From:- First 17 prime numbers are written from top to bottom. The letter of the word “**NOTCHING**” are written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

Numbers	Letters
2	
3	N
5	
7	O
11	
13	T
17	
19	C
23	
29	H
31	
37	I
41	
43	N
47	

53	G
59	

From:- M is placed against highest prime number.
Only three letters are placed between M and Q.
Only one letter is placed between V and Q.

Numbers	Case-1	Case-2
2		
3	N	N
5		
7	O	O
11		
13	T	T
17		
19	C	C
23		
29	H	H
31		V
37	I	I
41	Q	Q
43	N	N
47	V	
53	G	G
59	M	M

From:- R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which is not placed below 5. Y is below X but above U. R neither placed against 47 nor placed at the least prime number.

Numbers	Case-1	Case-2
2	W	W
3	N	N

5	R	R
7	O	O
11	X	X
13	T	T
17	Y	Y
19	C	C
23	P	P
29	H	H
31	U	V
37	I	I
41	Q	Q
43	N	N
47	V	U
53	G	G
59	M	M

From:- U is not placed against third highest prime number. V is not adjacent to H.

From above the conditions Case-2 get eliminated and case-1 is the final arrangement.

Numbers	Letters
2	W
3	N
5	R
7	O
11	X
13	T
17	Y
19	C
23	P
29	H
31	U
37	I
41	Q

43	N
47	V
53	G
59	M

Hence this is the final arrangement.

Q18 Text Solution:

From:- First 17 prime numbers are written from top to bottom. The letter of the word “NOTCHING” are written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

Numbers	Letters
2	
3	N
5	
7	O
11	
13	T
17	
19	C
23	
29	H
31	
37	I
41	
43	N
47	
53	G
59	

From:- M is placed against highest prime number. Only three letters are placed between M and Q. Only one letter is placed between V and Q.

Numbers	Case-1	Case-2
2		
3	N	N
5		
7	O	O
11		
13	T	T
17		
19	C	C
23		
29	H	H
31		V
37	I	I
41	Q	Q
43	N	N
47	V	
53	G	G
59	M	M

From:- R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which is not placed below 5. Y is below X but above U. R neither placed against 47 nor placed at the least prime number.

Numbers	Case-1	Case-2
2	W	W
3	N	N
5	R	R
7	O	O
11	X	X
13	T	T
17	Y	Y
19	C	C
23	P	P

29	H	H
31	U	V
37	I	I
41	Q	Q
43	N	N
47	V	U
53	G	G
59	M	M

From:- U is not placed against third highest prime number. V is not adjacent to H.

From above the conditions Case-2 get eliminated and case-1 is the final arrangement.

Numbers	Letters
2	W
3	N
5	R
7	O
11	X
13	T
17	Y
19	C
23	P
29	H
31	U
37	I
41	Q
43	N
47	V
53	G
59	M

Hence this is the final arrangement.

Q19 Text Solution:

From:- First 17 prime numbers are written from top to bottom. The letter of the word

“NOTCHING” are written in the same order against alternative prime numbers (one letter against one number) from top to bottom starting from 3.

Numbers	Letters
2	
3	N
5	
7	O
11	
13	T
17	
19	C
23	
29	H
31	
37	I
41	
43	N
47	
53	G
59	

From:- M is placed against highest prime number. Only three letters are placed between M and Q. Only one letter is placed between V and Q.

Numbers	Case-1	Case-2
2		
3	N	N
5		
7	O	O
11		
13	T	T
17		

19	C	C
23		
29	H	H
31		V
37	I	I
41	Q	Q
43	N	N
47	V	
53	G	G
59	M	M

From:- R is not placed adjacent to C and H. Only five letters are placed between R and P. Only three letters are placed between X and W which is not placed below 5. Y is below X but above U. R neither placed against 47 nor placed at the least prime number.

Numbers	Case-1	Case-2
2	W	W
3	N	N
5	R	R
7	O	O
11	X	X
13	T	T
17	Y	Y
19	C	C
23	P	P
29	H	H
31	U	V
37	I	I
41	Q	Q
43	N	N
47	V	U
53	G	G
59	M	M

From:- U is not placed against third highest prime number. V is not adjacent to H.

From above the conditions Case-2 get eliminated and case-1 is the final arrangement.

Numbers	Letters
2	W
3	N
5	R
7	O
11	X
13	T
17	Y
19	C
23	P
29	H
31	U
37	I
41	Q
43	N
47	V
53	G
59	M

Hence this is the final arrangement.

Q20 Text Solution:

From:- First 18 even numbers are written from top to bottom. The letter of the word "INCHOATE" are written in the same order against alternative even numbers (one letter against one number) from top to bottom starting from 4.

Numbers	Letters
2	
4	I
6	

8	N
10	
12	C
14	
16	H
18	
20	O
22	
24	A
26	
28	T
30	
32	E
34	
36	

From:- B is placed against at highest even number. Only four letters are placed between B and D. Only three letter are placed between M and D.

Numbers	Case-1	Case-2
2		
4	I	I
6		
8	N	N
10		
12	C	C
14		
16	H	H
18		M
20	O	O
22		
24	A	A
26	D	D
28	T	T
30		

32	E	E
34	M	
36	B	B

From:- Only five letters are placed between P and Q which is not placed below 18. P is not placed below Q.

Numbers	Case-1	Case 1(a)	Case-2
2	P		P
4	I	I	I
6		P	
8	N	N	N
10			
12	C	C	C
14	Q		Q
16	H	H	H
18		Q	M
20	O	O	O
22			
24	A	A	A
26	D	D	D
28	T	T	T
30			
32	E	E	E
34	M	M	
36	B	B	B

From:- G is not placed adjacent to H and T. G is placed above D but below Q. Only one letter are placed between G and J.

Numbers	Case-1	Case 1(a)	Case-2
2	P		P
4	I	I	I
6		P	
8	N	N	N
10			
12	C	C	C

14	Q		Q
16	H	H	H
18	J	Q	M
20	O	O	O
22	G	G	G
24	A	A	A
26	D	D	D
28	T	T	T
30			
32	E	E	E
34	M	M	
36	B	B	B

From above the conditions Case 1(a) and Case-2 get eliminated so we consider the case-1

From:- M is not placed adjacent to T and A. Only three letters are placed between F and J. K is not placed below F and Q. One of the letter is L.

Numbers	Letters
2	P
4	I
6	K
8	N
10	F
12	C
14	Q
16	H
18	J
20	O
22	G
24	A
26	D
28	T
30	L
32	E
34	M

36	B
----	---

Hence this is the final arrangement.

Q21 Text Solution:

From:- First 18 even numbers are written from top to bottom. The letter of the word “INCHOATE” are written in the same order against alternative even numbers (one letter against one number) from top to bottom starting from 4.

Numbers	Letters
2	
4	I
6	
8	N
10	
12	C
14	
16	H
18	
20	O
22	
24	A
26	
28	T
30	
32	E
34	
36	

From:- B is placed against at highest even number. Only four letters are placed between B and D. Only three letter are placed between M and D.

Numbers	Case-1	Case-2
2		
4	I	I
6		

8	N	N
10		
12	C	C
14		
16	H	H
18		M
20	O	O
22		
24	A	A
26	D	D
28	T	T
30		
32	E	E
34	M	
36	B	B

From:- Only five letters are placed between P and Q which is not placed below 18. P is not placed below Q.

Numbers	Case-1	Case 1(a)	Case-2
2	P		P
4	I	I	I
6		P	
8	N	N	N
10			
12	C	C	C
14	Q		Q
16	H	H	H
18		Q	M
20	O	O	O
22			
24	A	A	A
26	D	D	D
28	T	T	T
30			
32	E	E	E

34	M	M	
36	B	B	B

From:- G is not placed adjacent to H and T. G is placed above D but below Q. Only one letter are placed between G and J.

Numbers	Case-1	Case 1(a)	Case-2
2	P		P
4	I	I	I
6		P	
8	N	N	N
10			
12	C	C	C
14	Q		Q
16	H	H	H
18	J	Q	M
20	O	O	O
22	G	G	G
24	A	A	A
26	D	D	D
28	T	T	T
30			
32	E	E	E
34	M	M	
36	B	B	B

From above the conditions Case 1(a) and Case-2 get eliminated so we consider the case-1

From:- M is not placed adjacent to T and A. Only three letters are placed between F and J. K is not placed below F and Q. One of the letter is L.

Numbers	Letters
2	P
4	I
6	K
8	N
10	F
12	C

14	Q
16	H
18	J
20	O
22	G
24	A
26	D
28	T
30	L
32	E
34	M
36	B

Hence this is the final arrangement.

Q22 Text Solution:

We have,

1. The box W is placed 4th from the top.
2. The box M and box R are at the bottom most and fourth from the bottom respectively.
3. Lime colour balls and Purple colour balls are in the box R.
4. Silver colour balls and Maroon colour balls are in the box which is third from the top.
5. Cyan colour box and Magenta colour balls is immediately above the box which contains Yellow colour balls and Orange colour balls respectively and both these boxes are above the 5th box from the top.

	BOXES	BALLS	BALLS
--	-------	-------	-------

8TH		CYAN	MAGENTA
7TH		YELLOW	ORANGE
6TH		MAROON	SILVER
5TH	W
